commons, anticommons and semicommons 47–8

group property 62, 63, 65

exponentially more important than extremes of open access/full exclusion 66

hybrid schemes managing 65

optimal level of use 63–4

ordinary use 61–2, 63, 64

overuse 42, 57–8, 59–60

meaning 61, 63–4

possible in anticommons 69–70

ownership of property 62–3, 64

problem of scale 37–40

delinking right from individual to single or collective ownership 38–40

mix of individual and common ownership producing the dilemma 37–8

parcelization 38–9, 45, 48

rescaling to reduce the risk of mismatch 38, 39

transaction costs of shifts of ownership 39

unitization addressing overextraction 38

reversibility in property arrangements 48, 50

semicommons 2, 46–9, 114

commons and anticommons, and 48–9

commons tragedy growing out of 38

historically in farming 47, 49

information 114

interacting mixtures of private and common property 46–7

seeing the semicommons 47–8

strategy-proof solutions 49

temporal semicommons 48–9, 50

‘true semicommons property’ 47

spillovers 36, 48, 50

tragedy of the anticommons 41, 44, 45–6, 57–9, 60–61, 64–5, 66

expropriation of fragmented rights, addressing problems by 65

fragmentation and wasteful underuse 58, 60, 64, 65, 68, 69

full exclusion, addressing problems by 65

group exclusion 65–6, 70

hybrid systems, addressing problems by 65

individualistic behaviour, increase in 68

invisibility of underuse 65

lack of knowledge about 61

linked tragedies and solutions 45–6

monopolies, and 69

multiplicity of players blocking use of resource 60

privatization going too far 59, 60–61, 64

self-regulation 66

technological development, and 67–8

underuse 2, 42, 57–8, 60–61, 65, 68–70

unitization 68

vetoes, advantages of 70

tragedy of the commons 1, 2, 10, 35–6, 66

dilemma driven by two or more activities on different scales 38, 48

examples of overuse tragedies 59, 70

overuse 42, 57–8, 59–60, 62

use privileges 43

tragedy of the commons, addressing 40–41, 45, 57–9

anticommons dynamic, and 46, 50

cooperative engagement 59, 60, 62, 65, 66, 70

‘grandfathering’ provisions curtailing draws on common resources 46

hybrid systems 65

‘mutual coercion, mutually agreed upon’ 40, 45

privatization, markets and private property 57–8, 59–60, 61, 62–3, 66, 70

‘propertized’ solution may create tragedy of the anticommons 45–6

regulation and political advocacy 57–8, 59, 60, 62, 65, 66, 70

repricing, forms of 40, 45

requirement to give up untrammeled access to resource 46

use rights constrained by customs or rules 2

underuse 2, 42, 57–8, 60–62, 65, 68–70

continuum of resource use, and 64

design, by 70

invisibility of 65, 70

justifiability of 70

meaning 63

monopolies, and 69, 70

rarely the optimum 70

compensation see under eminent domain and takings law

compulsory purchase see eminent domain and takings law

conservation servitudes 70, 296, 297, 305, 316–18

criticisms of 317–18

easements 70, 317, 374

no requirement for benefitted land 317

renegotiability and termination 318, 319
