Christian Brzinsky-Fay graduated in Political Science at the Free University Berlin. He is currently working on his dissertation on the role of policies and institutions in the school-to-work transition in European countries within the LabourNet Graduate School on Labour and Welfare Studies at the Social Science Research Center Berlin (WZB) and the University of Tampere, Finland. His main fields of interest are quantitative research methods, comparative political science, labour market and education policies and policy analysis. Recently, he was engaged in two European projects, ‘Qualification Needs in OECD Countries – Identification, Analysis and Implementation’ and ‘Managing Social Risks through Transitional Labour Markets (TLM.NET)’.

Sandrine Cazes is Senior Economist in the Economic and Labour Market Analysis Department of the International Labour Office in Geneva since December 2005. Prior to that she was the Employment Specialist of the ILO Subregional Office for Central and Eastern Europe, in Budapest. Her main topics of interest are labour market policy and social reforms, the role of labour market institutions and flexicurity in both OECD countries and Central and Eastern Europe. She is author and co-author of numerous publications – books, research papers, policy advisory reports and articles in referenced economic journals.

Heejung Chung is a PhD candidate in the Flexicurity Research Programme at Tilburg University. She has graduated from Yonsei University in Korea (BA, MSW) and University of Edinburgh in Scotland (MSc Research in Social Policy). She also held research positions in the Korean Labor Institute (KLI) and the Institute for Labour Studies (OSA) in the Netherlands. She was a visiting researcher at the Social Science Research Centre Berlin (WZB) and is currently affiliated to the Amsterdam Institute for Labour Studies (AIAS). Her main research interests are cross-national comparison of European labour markets, especially regarding labour market flexibility, flexicurity, working time and work–life balance issues. Her dissertation is on working time flexibility behaviours of European companies.
Peter Ester is General Director of OSA, Institute for Labour Studies and Professor of Sociology at Tilburg University, the Netherlands. He is chairman of CentERdata, an Internet-based panel survey research institute at Tilburg University, member of the Advisory Board of Statistics Netherlands (CBS), and member of the advisory board of IAB (Institut für Arbeitsmarkt- und Berufsforschung), visiting professor at Gesis-ZUMA, Centre for Survey Research and Methodology in Mannheim. Peter Ester is former Director of GLOBUS, Institute for Globalization and of IVA, Institute for Social Research. He was visiting professor at several international universities, including the University of Michigan, Virginia Tech, University of California. He is a former Fulbright scholar at Claremont College, California. Peter Ester has published extensively on cross-national labour market trends, flexibility, youth and the labour market, work orientations, work and mobility. One of his main interests is the impact of the cultural factor in the domain of work.

Didier Fouarge studied Economics at the Facultés Universitaires Notre-Dame de la Paix (FUNDP) in Namur, Belgium. He holds a PhD from Tilburg University on the topic of poverty dynamics and social policy in Europe. From 1999 to 2007 he was researcher at the Institute for Labour Studies (OSA) and post-doc at Tilburg University. Since November 2007, he has been a researcher at the Research Centre for Education and the Labour Market (ROA), Maastricht University. His main research interests lie in scientific and applied research on labour market and income dynamics, working times, retirement, income distribution and poverty, and the welfare state. He has published in national and international journals as well as in books with distinguished publishers. For a full CV, see: www.roa.unimaas.nl/cv/fouarge/fouarge.htm.

Leen Heylen studied Sociology at the University of Louvain, Belgium. Since 2004, she has worked as a researcher for CELLO, Centre for Longitudinal and Life Course Research, Faculty of Political and Social Sciences, University of Antwerp, Belgium. Her research interests are, among others, life course and careers. Currently she is involved in a project from CoVIVE concerned with the loneliness and social isolation of the elderly, in a university consortium researching the socio-economic impact of ageing in Flanders and Europe.

Eckart Hildebrandt is Professor and Senior Researcher at the Social Science Research Center Berlin (WZB). He is a member of the ‘Education, Work, and Life Chances’ department. Research areas are the design of work and working-time policy, industrial relations, employment policy and environment and sustainability. In recent years, he has carried out various national and
international projects on the ‘future of work and sustainability’, ‘flexible working times’ and ‘day-to-day conduct of life’. Currently, he is coordinator of a project on lifetime working accounts at the Social Science Research Center Berlin (WZB), funded by the Hans Böckler Foundation. The project investigates the effects of lifetime working accounts with regard to firms’ human resource management and employees’ working time transitions over the life course.

Marcel Kerkhofs is Labour Economist at the OSA Institute for Labour Studies. He graduated from the Erasmus University in Rotterdam and has since worked at Tilburg University and Leiden University. He obtained his PhD in Economics at the University of Groningen. His research interests are in the field of empirical labour economics, particularly related to mobility, health and retirement.

David Marsden is Professor of Industrial Relations at the London School of Economics and Political Science (London, England UK). His expertise lies in employment relations in western Europe and the link between pay systems and performance. He is currently working on the effects of pay inequalities and HR management practices on economic performance in the EU and on the effectiveness of performance related pay in the British public services, notably in schools.

Ruud Muffels is Professor of Socio-Economics (Labour Market and Social Security) at the Department of Sociology and Research Professor at the Institute for Labour Studies (OSA) at Tilburg University. His main research interests deal with labour market dynamics, income distribution and social exclusion, comparative analyses of the welfare state and the socio-economics of ageing. He has published in a wide range of sociological, economic and interdisciplinary journals and (co)-edited a number of international academic volumes. His most recent book is entitled: Flexibility and Employment Security in Europe: Labour Markets in Transition (2008, with Edward Elgar).

Alena Nesporova is Deputy Director of the Regional Office for Europe and Central Asia of the International Labour Office in Geneva since March 2005. Prior to that she was Chief of the Employment Policies Unit in the Employment Strategy Department of the ILO. Ms Nesporova holds a PhD in economics. Her main topics of interest are comparative research and policy advisory work in the field of employment policy, labour market institutions and policies and flexicurity, in particular in the countries of Central and Eastern Europe and Central Asia but she has also worked on China, Vietnam and Egypt. She is author and co-author of numerous publications – books,
research papers, policy advisory reports and articles in referenced economic journals.

Amelia Román studied Sociology at Tilburg University and received a PhD from Utrecht University Department of Economics. Since 2001 she has worked for OSA (Institute for Labour Studies), Tilburg, the Netherlands as a senior researcher. Her research interests are the changing dynamics of life course patterns and how they affect careers, life course labour participation, early career choices and path dependency, effects of part-time work, non-participation and periods of unemployment, as well as the influence of human capital investment for labour participation continuity. More recently she has also begun researching motivations and barriers for work-related mobility across regions and countries.

Joop Schippers is Research Director of OSA, Institute for Labour Studies. He combines this task with a professorship in labour economics and gender economics at Utrecht University and coordinates the EU-research project ASPA (Activating Senior Potential in Ageing Europe). He has been on different advisory bodies of the Dutch government on issues like equal opportunity policies, gender mainstreaming and life course policies.

Günther Schmid is Professor Emeritus for Economic Theory of Politics at the Free University of Berlin and director of the research unit ‘Labour Market Policy and Employment’ at the Social Science Research Center Berlin (WZB). He has been Visiting Professor at the University of Wisconsin in Madison (USA), Paris Sorbonne (France), Stockholm and Växjö (Sweden), the Institute for Advanced Studies in Vienna (Austria), Aalborg (Denmark) and the Netherlands Institute for Advanced Studies (NIAS). His main research interests are labour market policy and unemployment insurance, comparison of employment and welfare systems, evaluation and implementation of labour market policies, political economics and philosophy. He has also served as consultant for the OECD in Paris and the European Commission in Brussels, and was appointed to the Commission on Modern Services for the Labour Market (so-called Hartz Commission) in 2002 and to the European Employment Task Force (so-called Kok Commission) in 2003.

Frank Vandenbroucke is Vice-Minister-President of the Flemish Government and Flemish Minister for Employment, Education and Training (since July 22, 2004). Before that he was Minister for Social Affairs and Pensions (1999–2003) and Minister for Employment and Pensions (2003–2004). He studied Economics at the University of Leuven (1978) and received an MPhil
Contributors

Economics from Cambridge, UK (1981–1982) and a DPhil from the Faculty of Social Studies of the Oxford University, UK (1996–1999).

Greet Vermeylen is Research Manager in the Monitoring and Survey Unit of the European Foundation for the Improvement of Living and Working Conditions in Dublin. She is involved in the European Establishment Survey as well as in the European Working Conditions Survey. She is also working on the European Working Conditions Observatory. She has been involved in numerous other research projects of the European Foundation, such as projects on working poor, on flexicurity and on case study guidelines.

Ton Wilthagen is Professor of Institutional and Legal Aspects of the Labour Market at the Faculty of Law of Tilburg University, the Netherlands, and director of the Tilburg Flexicurity Research Programme. He is a member of the European Flexicurity Research Network, the TRANSWELL, and the RecWoWe (Reconciling Work and Welfare in Europe) research networks. He was affiliated with the Institute for Labour Studies (OSA) in Tilburg and with the Hugo Sinzheimer Institute and the Amsterdam Institute for Advanced Labour Studies at Amsterdam University. He has been a visiting researcher at the Social Science Centre Berlin (WZB). His research interest is in labour market and employment regulation, labour law, industrial relations and a variety of labour market issues. His main focus lies on the themes of flexicurity, transitional labour markets and life-course approaches.

Philip Wotschack is researcher in the ‘Education, Work, and Life Chances’ department at the Social Science Research Center Berlin (WZB). Research areas are flexible working hours, life-course policies, and working time arrangements over the life course. His main interest lies in the impact and interaction of firm policies and household arrangements. From 2000 to 2005, he was researcher at the University of Groningen in the Netherlands and worked in the integrated research programme ‘Time Competition. Disturbed Balances and New Options in Work and Care’, financed by the Netherlands Organisation for Scientific Research. Currently, he is working on a project on lifetime working accounts at the Social Science Research Center Berlin (WZB), funded by the Hans Böckler Foundation. The project investigates the effects of lifetime working accounts with regard to firms’ human resource management and employees’ working time transitions over the life course.
