water efficiency
defined 155
and efficiency in environmental management study 69–70, 71, 72
and environmental Kuznets curve (EKC) study 22
and increasing returns to pollution abatement study 124
in iron and steel industry 168, 171, 173
and iron and steel industry productivity study 169, 182–4, 185, 186, 187
variable, in water efficiency and agricultural production study 155–6, 157, 159–63, 167
and water management policies 168
see also water efficiency and agricultural production study
water efficiency and agricultural production study conclusions 163
data 153
introduction 146–9
methodology 154–9
regional agricultural production 149–52
results 159–63, 167
water inefficiency 161–2, 181, 184, 185, 186, 187
water management policies 69–70, 89, 146, 168
water pollution
and efficiency in environmental management study 69–70
and efficiency in environmental management study II 83
and environmental Kuznets curve (EKC) study 34–6, 38, 39
and iron and steel industry productivity study 169, 173
SEPA estimates 51, 83, 122
