Tables and Boxes

**TABLES**

3.1 Evolution of EU Policy Positions on REDD Financing 42
4.1 Interview Participants 56
5.1 FCPF REDD Country Participants 78
5.2 Proposed Main Components of the Readiness Preparation Proposal (R-PP) 83
5.3 National and Multilateral Initiatives to Reduce Deforestation and Forest Degradation 90
6.1 Environmental Effectiveness: Percentage Reduction in Global Emissions from Tropical Deforestation 103
6.2 Economic Efficiency in Reducing Emissions: Effective Emissions Reductions Relative to Credits Generated (Higher Efficiency Means Lower Program Costs per Ton of Actual Reductions) 103
6.3 Results for the Stock-Flow with Targets in Terms of Effectiveness, Efficiency and Inequality 105
6.4 Comparison of Effectiveness, Efficiency, Inequality and Participation for Different REDD Proposals 108
8.1 Impact on Phase III EUA Price of Different Supplementarity Limits for International Credits (Excluding Forestry) and against Different EU ETS Emissions Reduction Targets 143
8.2 Impact on the Phase III EUA Price of Adding Forestry Credits to the International Credit Market 143
8.3 Some Potential Sources of Non-Carbon Market Finance 145
9.1 Model Results for Constant, Decreasing and Increasing REDD Scenarios 161

**BOXES**

2.1 REDD SBSTA Decision Bali Road Map 36
6.1 How to Calculate a Country’s REDD Funds According to the Standard Stock-flow Mechanism 99
