Figures and tables

FIGURES

1.1 Convergence versus divergence in GDP per capita, 1960–2000 7
1.2 Measuring capabilities 14
1.3 GDP per capita and innovation system (2002–04) 17
1.4 Openness to ideas (75 countries, 2002–04) 23
1.5 Openness to business (75 countries, 2002–04) 24
1.6 Openness to people (75 countries, 2002–04) 25
2.1 Changes in national FDI policies (number of ‘more favourable’ minus ‘less favourable’), 2000–06 33
2.2 Composition of worldwide FDI stocks, 1980–2008 34
2.3 Number of BITs concluded, 1969–2005 40
2.4 Gender disparity in schooling, 1980 and 2000/2005 in low-, middle- and high-income countries 48
3.1 Optimal strategies for firms with different productivity levels 61
3.2 Average unemployment across wage quantiles 71
6.1 Female total work minus male total work compared to real GDP per capita, 27 countries 124
6.2 Women’s labour force participation rate and per capita income, 2005 126
7.1 Hourly wage of workers and gas/fuel prices 157
7.2 Foreign trade balance: United States 161
7.3 Foreign trade balance: France 161
7.4 Foreign trade balance: United Kingdom 162
7.5 Foreign trade balance: Germany 162
7.6 Foreign trade balance: Japan 163
7.7 Foreign trade balance: China 163
7.8 Foreign trade balance: Russia 164
7.9 Foreign trade balance: Brazil 165
7.10 Foreign trade balance: India 165
7.11 Rice production, exports and imports (% of world total) 167
7.12 Wheat production, exports and imports (% of world total) 168
7.13 Maize production, exports and imports (% of world total) 168
7.14 Cereals production, exports and imports (% of world total) 169
7.15 Total labour force in agriculture (%) 170
Figures and tables

7.16 GDP from agriculture (%) 171
7.17 Females in total agricultural labour force (%) 171
7.18 Climate change and rice production 173
7.19 Climate change and wheat production 173
7.20 Climate change and maize production 174
7.21 Climate change and daily calories per capita 175
7.22 World cereal stocks, 2000–07 (million tonnes) 178

TABLES

1.1 Capabilities and GDP per capita 19
2.1 Share of selected groups of developing countries in worldwide FDI stocks (%), 1980–2007 35
2.2 Fixed-effects OLS estimation results on the effects of BITs on bilateral FDI flows 42
2.3 GMM estimation results on the effects of labour rights on bilateral FDI flows 46
2.4 Tobit estimation results on the effects of gender disparity in education on bilateral FDI flows 49
4.1 Share of knowledge-intensive services in total industry output 85
4.2 Descriptive statistics 88
4.3 Correlation coefficients in knowledge-intensive manufacturing industries 89
4.4 Correlation coefficients in knowledge-intensive service industries 90
4.5 Regression results for knowledge-intensive (KI) manufacturing industries 91
4.6 Regression results for knowledge-intensive (KI) service industries 93
5.1 Total and working-age population, China and India (in millions) 103
7.1 Climate change effect on 2050 production relative to no climate change effect (% change) 172
