   - 3.3 Business management and the choice of microeconomic perspectives 54
   - 3.4 The relevance to business management of knowledge about microeconomic policy 55
   - 3.5 Concluding comments 56
   Reading and references 56
   Questions for review and discussion 57
PART B   DEMAND, SUPPLY, MARKETS AND POLICY

4  Competitive markets and price regulation 61
   4.1  Introduction 61
   4.2  Why does the state regulate competitive markets? 64
   4.3  Price regulation in product markets: Some examples 68
   4.4  Price regulation in factor markets: Some examples 80
   4.5  Price regulation in international markets: Some examples 82
   4.6  Concluding comments 89
   Reading and references 89
   Questions for review and discussion 89

5  Consumers and policy 91
   5.1  Introduction 91
   5.2  Predictive accuracy and testing of demand theory 91
   5.3  Consumer welfare: How is it to be taken into account? 99
   5.4  Market failure, imperfections and consumer protection 106
   5.5  Elasticities of demand and policy 117
   5.6  Conclusion 122
   Reading and references 122
   Questions for review and discussion 123

6  Costs, supply and policy 125
   6.1  Introduction and overview 125
   6.2  Cost as an operational concept 126
   6.3  The nature of short-run and long-run cost and supply curves 136
   6.4  Learning, externalities and policy 144
   6.5  Market transaction costs and market extension as a source of cost reductions 149
   6.6  Concluding comments 151
   Reading and references 152
   Questions for review and discussion 153

PART C   IMPERFECT MARKETS

7  The behaviour of firms 157
   7.1  Introduction 157
   7.2  The development of theories of the firm 158
   7.3  Why do firms exist? 162
   7.4  Alternative models of firm behaviour 165
   7.5  Policy applications 172
   7.6  Industrial policy 182
   7.7  Conclusion 187
   Reading and references 188
   Questions for review and discussion 189
## Contents

8 Monopoly: Consequences, regulation and prevention 190
8.1 Introduction 190
8.2 The nature of monopoly 191
