</tbody>
</table>
6.2 Inflow of FDI of main countries/regions (based on international balance of payments) (US$ million %) 127
6.3 Determinants of inward FDI in East Asia, 1987–94 133
6.4 Matrix of foreign direct investment 138
7.1 Selected data on majority-owned non-bank US affiliates (US$ millions) 155
7.2 Structure of output of non-bank US parents (US$ millions) 157
7.3 Structure of output for non-bank majority-owned affiliates (US$ millions) 158
7.4 GDP of majority-owned foreign affiliates of US companies 161
7.5 Share of US MOFA GDP in national GDP: selected years 162
8.1 Results of sensitivity analysis 176
8.2 Correlation coefficients for actual and optimal saving rates: 1980–94 180
8.3 Sensitivity of optimal S/Y for 1994 182
A8.1 Value of parameters $\rho$ and $\omega$ 188
A8.2 Values of parameters $\gamma_0$ and $\gamma_1$, and asymptotic population/employment and output growth rates: $n$ and $\Theta$ 188
9.1 Trade payoff matrix 201
A9.1 Nations participating in the Bretton Woods Conference, 1944 222
A9.2 Rounds of trade negotiations under GATT 223
A9.3 Major regional trading blocs 224
10.1 The effects of trading blocs: trade diversion 233
10.2 Trade is not diverted with economies of scale 234
11.1 Members of the EU – basic economic and political statistics 251
11.2 The dimensions of economic unification 254
11.3 The main findings of the Cecchini Report 264
11.4 Is a single European market possible? 267
11.5 General government deficits (net lending/borrowing) and gross debt as a % of GDP 272
11.6 EU fifteen forecasted Maastricht criteria performance in 1997 273
11.7 Is the EU an Optimum Currency Area? 279
11.8 Living standards in Central Europe and the EU 282
11.9 Central Europe and the EU: real GDP growth rates, 1994–97, (%) 285
11.10 Central Europe and the EU: consumer price inflation, 1994–97, (%) 286
11.11 Central Europe and the EU: unemployment, 1994–97, (%) 286
11.12 Central Europe and the EU: fiscal balances, 1994–97, (% of GDP) 287
11.13 Central Europe and EU current account balances, 1994–97 (% of GDP) 287
11.14 Cumulative FDI inflows in the Central European economies, 1989–95 290
12.1 Estimates of protection, post-NAFTA and Uruguay Round (%) 302
12.2 Composition of ASEAN trade, 1994 (% of total trade with all countries) 307
13.1 Growth rate of GDP (%) 320
13.2 SAPTA – depth of tariff cuts 324
13.3 South Asia’s exports and imports to and from the rest of the world, ICS and DCS, 1997–94 (US$ million) 326
13.4 India’s trade (%) 327
13.5 Direction of South Asian trade (US$ million) 328
13.6 Net flow of capital in South Asia (US$ million) 329
13.7 DFI in South Asia (US$ million) 330
13.8 Economic infrastructure in Asia, 1992 334
14.1 Summary of regression variables 375
15.1 Country statistics: Russia, Ukraine and Czech Republic 397
15.2 Country statistics: Hungary and the Slovak Republic 400
15.3 Country statistics: Poland and Estonia 403
15.4 Country statistics: Romania and Latvia 405
15.5 Country statistics: Lithuania and China 407
16.1 Average annual growth of GNP and GNP per capita in selected former planned Socialist economies of Eastern Europe, 1950–90 413
16.2 Poland: economic performance during the 1980s 416
16.3 Hungary: economic performance during the 1980s 418
16.4 Czechoslovakia: economic performance during the 1980s 419
16.5 The Czech Republic, Hungary and Poland: real GDP growth rate, 1990–96 (%) 434
16.6 The Czech Republic, Hungary and Poland: consumer price inflation – average annual rate, 1990–96 (%) 435
16.7 The Czech Republic, Hungary and Poland: unemployment, 1990–96 (% of labour force) 435
16.8 The Czech Republic, Hungary and Poland: industrial production, 1990–96 (1990 = 100) 435
16.9 The Czech Republic, Hungary and Poland: fiscal balances, 1990–96 (% of GDP) 436
16.10 The Czech Republic, Hungary and Poland: current account balance, 1990–96 437
16.13 The Czech Republic, Hungary and Poland: economic transition and structural adjustment 443
17.1 Forms of designated Polish privatization, 1990–93 461
18.1 Real GDP growth rate in China and Vietnam, 1980–97 (%) 491
18.2 Real GDP growth in China and Vietnam, by sector 1989–94 (%) 491
18.3 Share of GDP and employment in China and Vietnam (%) 493
18.4 Saving and investment in China and Vietnam, 1988–94 (% of GDP) 494
18.5 Consumer price inflation in China and Vietnam, 1977–95 (%) 495
18.6 China and Vietnam: state budgetary balance, 1990–94 (% of GDP) 497
18.7 China and Vietnam: foreign trade and balance of payments (US$ billion) 500
18.8 China and Vietnam: direction of trade, 1985 and 1993 501
18.9 FDI into China and Vietnam, 1985–94 (US$ billion) 503
18.10 China and Vietnam: external debt, 1985–94 504
19.1 Categories of exchange-rate pass-through 523
19.2 Trade account response immediately after devaluation: phase 1 of the J-Curve 533
19.3 J-Curve possibilities in the second phase 538
21.1 Portfolio investment into emerging markets (US$ million) 583
21.2 Correlation coefficients for eight selected markets, 1986–92 (exchange rates are not adjusted) 589
21.3 Factor analysis of correlation matrix: eigenvalues and proportions 590
21.4 Factor analysis of correlation matrix, unrotated component analysis factor matrix 590
21.5 Factor analysis of correlation matrix, rotated component analysis factor matrix 592
25.1 Comparison of world oil consumption, production, and price projections in 2010, by region 689
25.2 Unit root test (weighted symmetric tau) 694
25.3 Cointegration tests (full data time span) 695
25.4 Cointegration tests for span 1973–94 695
26.1 Variable descriptions and simulation values 714
26.2 Comparative static results 719
26.3 Present discounted value (PDV) of flow variables:
   base case 724
26.4 Unilateral tax policy in South: $\tau_1 = 0.2$, $\tau_2 = 0$ 727
26.5 Multilateral tax policy in South: $\tau_1 = \tau_2 = 0.2$ 727
26.6 Trade policy intervention from North: $\tau_p = 0.2$ 727
26.7 Southern profits: $\lambda = 0.01$ 729
