Exhibits

1.19 The calculation of the capital charge for market risk under the internal models approach allowed, at national discretion, by the Basle Committee 67
1.20 The new RAR methodology to be employed under the Basle capital accord to accommodate market risk 72
1.21 Weighting factors to be employed in the calculation of general market risk capital charges for debt securities under the ‘maturity’ method 75
1.22 The Basle Committee’s proposed capital requirements for dealing with commodities risk 78
1.23 The Basle Committee’s principles for interest rate risk management 80
1.24 List of core principles for effective banking supervision 84
1.25 SRO structure under the Financial Services Act 1986 91
1.26 The Financial Services Act 1986 93
1.27 The structure of UK financial regulation pre-June 1998: a simplified model 96
1.28 The structure of UK financial regulation under the new Financial Services Act 97
1.29 Differences between the Basle agreement on capital adequacy assessment and the EC Directives on own funds and solvency ratios 105
1.30 The services covered by the ‘single passport’ under the Investment Services Directive 110
1.31 Alternative definition of own funds allowed, at national discretion, under the CAD 113
1.32 The RAR methodology employed by EU banking regulators since the implementation of the CAD on 1 January 1996 114
1.33 Differences between the EC and Basle Committee approaches to measuring and assessing market risk for firms engaged in investment business 115
1.34 BCCI: timetable of events 1972–98 121
1.35 BCCI: a comparison of suggested supervisory reforms 130
1.36 A summary of Lord Justice Bingham’s recommendations 132
1.37 The Bank’s response to the Bingham Report 133
1.38 The collapse of BFS and the Barings Group and its aftermath: a chronology of events 1986–98 136
1.39 Barings: the lessons to be learnt by the Bank according to the (independent members of the) Board 150
1.40 Arthur Andersen’s summary of recommendations 157
1.41 The proposed new organizational structure for S&S 160
2.1 S&S organogram (as at 1 March 1997) 208
2.2 List of institutions authorized as at 28 February 1998 216
2.3 The definition of ‘primary capital’ prior to the UK/US accord 245
2.4 Definitions of the ‘capital base’ and ‘adjusted capital base’ used by the Bank in assessing the capital adequacy of authorized institutions 245
2.5 The Bank’s approach to defining capital under the Own Funds Directive 249
2.6 The Bank’s approach to defining capital under the CAD 252
2.7 Risk weights applied to on-balance-sheet assets by the Bank pre-CAD 258
2.8 Potential credit exposure: proposed conversion factors for interest rate and foreign exchange rate contracts 263
2.9 Calculation of credit equivalent amounts: interest rate- and foreign exchange rate-related transactions 264
2.10 Credit conversion factors for off-balance-sheet risk applied by the Bank 265
2.11 The Bank’s treatment of interest rate- and foreign exchange rate-related instruments 267
2.12 Prudential return form (CAD1) 269
2.13 Capital requirements imposed under the CAD to deal with position risk 284
2.14 Scaling factors to be applied to net underwriting positions to derive the ‘reduced underwriting positions’ under the Bank’s proposals 292
2.15 Capital requirements imposed under the CAD to deal with settlement risk 293
2.16 Capital requirements imposed under the CAD to deal with counterparty risk 294
2.17 Capital requirements imposed under the CAD to deal with large exposures risk arising from intermediaries’ trading book business 296
2.18 Capital requirements imposed under the CAD to deal with foreign exchange risk 298
2.19 The new RAR methodology to be employed by UK-incorporated banks under the CAD 303
2.20 SLR1 form 305
2.21 Procedures adopted in the assessment of liquidity adequacy for banks other than large UK retail banks 308
2.22 LR form 311
2.23 The S3 return 329
2.24 The treatment of large exposures under the CAD: calculation of the incremental capital requirements for excess exposures extant for more than 10 days 336
2.25 Revised large exposures return 337
2.26 Country debt provisioning matrix 354
