5T concept 2, 61
“6 Rs” analysis 50

Abendroth, A. 134, 138
Adamovic, M. 373–4
adaptability 337–8, 443, 445
affect 164
affective events theory 166
affective path of enrichment 136
affective reactions 168
affective revolution 164
affective trust 229, 306, 312, 314–16, 335
affordances 1–20, 24–5, 28, 32–3
anthropomorphism 51
teamwork perspective 116–18
transactive memory systems 287
virtual teams 205
Agarwal, R. 169
age diversity 385, 388–9, 390
agency 49–50, 412–13, 415–16
agentic role, technology 203–4, 211
AI see artificial intelligence
AI-mediated communication 50–51, 70
Aiken, M. 287
algorithms 33, 74, 77–8, 79, 111
Allen, T. D. 135, 137, 139, 408
allocation process, transactive systems 72, 73
ambidexterity 377, 445, 455
Amir, Y. 394
Anderson, N. 266, 411
Andres, H. P. 4
anthropomorphism 51, 79–80, 113
anticipation 327, 333, 336–7
Antino, M. 243
Antoni, C. H. 206, 268, 286–7
Application Programming Interfaces (APIs)
442–3, 451
Arena, M. 226
Argote, N. 278
Armstrong, D. J. 392
artificial intelligence (AI) 1, 41, 48
collective intelligence and 2, 67–88
design choices 45–6
embedded 49
embodiment 49, 79–80
human interaction 89–109, 109–27
public perceptions 111–14
research opportunities 50
teamwork perspective 109–27
trust in 45–6, 78–80, 115, 119, 121
virtual collaboration applications 52–8
Ashforth, B. E. 164
Ashkanasy, N. M. 164, 173
asynchronous communication 25–6, 259, 476–7
emotions and 176
lean media 429–31
team faultlines 249
virtual project teams 349, 351
work design 411
attention allocation 71, 73
attention systems 67, 72–3, 74, 76, 77
attributorial biases 154–5
Auger, G. A. 175
augmentation
AI/ML technologies 91–2
cognition/technology 67–88
intelligent technology 49–50
virtual collaboration 41–66
authentic leadership 227–8, 230
automation 50, 91–4, 109–10, 112, 114, 120
autonomy 91, 95, 113
asymmetries 104
automation distinction 50
enrichment link 136
leadership role 230
self-determination theory 220
self-driving vehicles 114
work design and 412, 415–16
awareness concept 117
awareness systems 70
Bailey, D. E. 41–2, 47, 48, 59
Barley, S. R. 41–2, 47, 48, 59, 372
Barsade, S.G. 164, 173
Bartel, C. A. 148
Bartlett, C. A. 426–7
Basile, K. A. 138
Beauregard, T. A. 138
Bedwell, W. L. 42–3, 259, 261–2, 272
behavioral strategies 138–9, 154
Bell, B. S. 225
Benbasat, I. 79–80
Benbya, H. 50
Benda, A. N. 278
Bennett, A. A. 416
Benoliel, P. 472
Bentley, T. A. 413
Bernardini, Sara 41
cognition 280–304
  dimension, TPV 208–9
  emotional considerations 129
  functions 71, 74–5, 281–5, 288–90, 296, 299
  knowledge 281–8, 296, 299
  resources, directing/maintaining 152
  structures 446
  technology augmentation 67–88
cohesion–trust relationship 315
Coe, P. 392
collaboration
  arrangements 449–51
  approach, benefits of 315
  decision-making 327–8
  definitions 42–4
  development 101–2
  dimensions of 43
  intelligent technology 41–66
  performance framework 259, 260–263
  platforms 30, 52, 270
  problem solving 283
  tools 27, 29–30, 201–2, 291
  use of term 260
collective efficacy 337
collective intelligence (CI) 2, 67–88
Collective Knowledge Creation Potential 448
collectively experienced distance 208–9
collectively experienced information deficits 208–9
Collins, A. M. 367
communal public goods 28–9
communication
  challenges 404–5
  media 427–35
  norms 151
  strategies 138–9
  technologies 2, 21–40, 150–151
    affordance perspective 24–5, 28, 32–3
    collective intelligence 70
    faultlines and 249
    shared mental models 287
    visibility 32–3
community networks 193–4
competencies
  general frameworks for 471
  technology 291–2, 293–4
  competitiveness 315, 445
  compilational approach 318
  complex adaptive systems 226
  complexity, characteristics of 268
  complexity leadership 225–6, 230
  complexity theory 225–6
  composition models 211, 318
Index

computational AI research 123
computer-aided design (CAD) 352–3
computer-assisted work (CAW) 5
computer-mediated communication (CMC) 4–5
  deficiency models 10
  emotional contagion 172
  fit perspective 409
  quality reduction 404–5
  visibility 7

de Pillis, E. 469
de Vries, H. 167
DeChurch, L. 49, 220–221
decision making
  agency and 204
  AI/ML technologies 89–90, 94–5
  authority for 474
  collective reasoning 77
  resilience and 327–8
  team cognition 283, 284, 289
DeCostanza, A. H. 49
deep acting 174
deficiency models 4, 10
DEIJ issues see Diversity, Equity, Inclusion, and Social Justice issues
Delanoeije, J. 135, 166, 408
Dennis, A. R. 169, 348
design choices 45–6
design principles 98–102, 103
design recommendations 118–19, 121
deterministic approaches 10–11, 23–4
Dettmers, J. 138
Diederich, S. 51
Diefendorff, J. M. 175
digital communication platforms 425
digital communication visibility 33
digital nomads 129, 186–96, 467
  antecedents to 189–92
  definitions 187–9
  freedom factor 189–90
digital skills development 395
digital workplace design 403–24
digitalization 257–77
Dimas, I. D. 129
Dinh, J. V. 229
Dionne, S. D. 395
direct messaging 201–2
Dirks, K. T. 318
disabilities 385, 390
discriminatory practices 388, 391
dispositional attributions 154–5
distance work 131, 208–9, 391–2
distributed systems 454–5
distributed teams 264, 369–70
distributed workgroups 42
Diversity, Equity, Inclusion, and Social Justice (DEIJ) issues 13
benefits of 249–50, 386, 425
beliefs 209–10, 249
communication 393
configuration 235
equal opportunities 393
equality 366, 386
ethnicity 384, 390
formal diversity communication 393
management 361–2, 384–5, 387–90, 391–2
racial minorities 384
document sharing 206
documentation and trust 267
Dorris, A. D. 173
Dulebohn, J. H. 224
Dutton, J. E. 418
Duxbury, L. 259, 266
dynamic value networks 442–64
e-remote work 166–7, 176
see also telework
Eagly, A. H. 388
EASI model see emotions as social information model
Edmondson, A. 314, 394
efficacy 151, 329, 336–7, 340–341
Einstein, Albert 67
Eisenhardt, K. M. 454
electronic monitoring 415
electronic performance monitoring (EPM) 471
Electronic Propinquity Theory 23
electronic quasi-integration 443–4
Ellis, Edward S. 48
Ellison, N. B. 10
email messages 172, 204
email platforms 46

emotional contagion 129, 170–173, 177–8, 315
emotional expression 165, 168–70, 176–80
emotional intelligence 173–4, 178, 229
emotional labor 174
emotional management 164–85, 315–16
emotional presence 175
emotional regulation 165, 178–9
emotional trust 79–80
emotions 164–85
definitions 164
enrichment and 136
feeling emotions 165, 176
interpreting 168–70, 176–8
mood distinction 164
spreading 176–8
team perceived virtuality 209
emotions as social information (EASI) model 129, 168–70, 176
enrichment 136
Enterprise 2.0 technologies 29–30
telework
enterprise social media (ESM) 4, 6, 8, 10, 27, 30–31, 35
entrepreneurial leadership 226
entrepreneurship research 193–4
episodic framework, trust 308
EPM see electronic performance monitoring
Erez, M. 362
Eseryel, U. Y. 224, 225
ESM see enterprise social media
ethnocultural differences 389, 394
evaluation
principal–agent relationships 96–7
technology interdependencies 99
Evans, S. K. 8
expatriation 429
expertise configuration 369
extensible Markup Language (XML) 451
face-to-face (F2F) work
categorization problems 280
returning to 223
as rich media 429
transitioning to virtual 347–60
virtual teams mimicking 317
family domain, definition 133
family-to-work conflict (FWC) 134–7
Farh, C. I. 392
faultlines
-based virtual teams 235–56
definition 235
demographic 236–7
dormant 237, 241–2, 247–8
entrenchment concept 247
geographic location 238, 242
management 247–50
research 198
trust and 310
feature specificity, intelligent technology 46–7
feedback
  asynchronous communication 411
  electronic monitoring 415
