

Acknowledgements

This book is largely the result of two collaborative research projects, *Owning and Disowning Invention* (funded by the Arts and Humanities Research Council), and the IPBio Network (funded by the White Rose Consortium). We would like to thank all of those involved in both projects, especially Greg Radick, Graeme Gooday, Berris Charnley, Jon Hopwood-Lewis and Christine MacLeod. We would like to thank Miss Antonia Pavli for assisting us in the preparation of the manuscript. We are also grateful to our authors for their outstanding contributions and for being such excellent colleagues.
