

Preface

This book is the outcome of a reflection process that brought most of our contributors together at the Maastricht Centre for European Law on October 10–11, 2011 for a conference entitled ‘Judicial Activism at the European Court of Justice: Causes, Responses and Solutions’. This event and the resulting publication have received the support of Maastricht Faculty of Law, the European Union Democracy Observatory and the Limburg University Fund/SWOL. We are most grateful to the participants, speakers and authors for thought-provoking academic exchanges as well as to the organizations that have provided their administrative and financial assistance to this initiative thereby making its realization possible. This book reflects developments up to mid-2012.
