## Acknowledgements

---

This book is the result of close cooperation with experts in the field who were able to outline the main topics and approaches within the area of decision-making on mega-projects. We are grateful for the following scientists who contributed in a double-blind procedure their critical reviews, which have often led to substantial improvement of the chapters:

Alex Anas (USA); Jan Anne Annema (Netherlands); David Banister (UK); Joseph Berechman (Israel/USA); Luca Bertolini (Netherlands); Alain Bonnafous (France); Michael Browne (UK); Hans de Bruijn (Netherlands); Kenneth J. Button (USA); Chantal Cantarelli (Netherlands); Marc Davidson (Netherlands); Harry Dimitriou (UK); Jonas Eliasson (Sweden); Rune Elvik (Norway); Bent Flyvbjerg (Denmark); Harry Geerlings (Netherlands); Karst Geurs (Netherlands); Mendel Giezen (Netherlands); Richard Gilbert (Canada); Hans van Ham (Netherlands); Arnold Heertje (Netherlands); Ernst ten Heuvelhof (Netherlands); Graeme Hodge (Australia); Martin de Jong (Netherlands); Mark Koetse (Netherlands); Carl Koopmans (Netherlands); Joop Koppenjan (Netherlands); Ekki Kreutzberger (Netherlands); Donald Lessard (France); Martijn Leijten (Netherlands); Cathy Macharis (Belgium); Peter Mackie (UK); Chris Nash (UK); Peter Nijkamp (Netherlands); James Odeck (Norway); Anthony Perl (Canada); Stef Proost (Belgium); Piet Rietveld (Netherlands); Kim Salling (Denmark); Knut Samset (Norway); Matti Siemiatycki (Canada); Eiichi Taniguichi (Japan); Barry Ubbels (Netherlands); Odette van de Riet (Netherlands); Didier van de Velde (Netherlands); Alexander Verbraeck (Netherlands); Martin Wachs (USA); Tom Worsley (UK).
