(ÉPFL), Switzerland. Since 2010 he has also been a part-time Professor at the European University Institute in Florence, Italy, where he directs the Florence School of Regulation’s Transport Area. His main research interest is on the liberalization, re-regulation, and governance of infrastructures in the transport, energy, and communications sectors. He is the co-editor-in-chief of the journal *Competition and Regulation in Network Industries*.

**Torben Holvad** is Economic Adviser at the European Railway Agency, France; senior research associate at the Transport Studies Unit, University of Oxford, UK; a research associate at the École Polytechnique Fédérale de Lausanne (ÉPFL), Switzerland; and External Associate Professor at the Department of Transport, Danish Technical University, Denmark. He obtained his Economics degrees from Copenhagen University, Denmark (MSc) and the European University Institute in Florence, Italy (MA and PhD).

**Rosário Macário** is Professor of Transportation at the Department of Civil Engineering, Architecture and Georresources at Instituto Superior Técnico (IST) Lisbon Technical University, Portugal. As a partner and board member at TIS.PT (Consultores em Transportes, Inovação e Sistemas s.a) she has much experience in the coordination of international research and also in conducting national studies with a specific focus on transport policy and planning and exploitation of transport systems. Rosário Macário is Vice-President of the Scientific Council of WCTRS, the World Conference on Transportation Research Society, and co-founder of PANAMSTR, the Panamerican Society for Research in Transportation.

**Chris Nash** is Research Professor at the Institute for Transport Studies (ITS), University of Leeds, UK, where he specializes in research on rail policy and transport infrastructure charges. Recent work includes contributing to the EVES-rail project on vertical separation in railways for the CER (Community of European Railway and Infrastructure Companies). He has acted as advisor to many bodies, including the European Commission High Level Group on Transport Infrastructure Charging, the European Union Committee of the House of Lords, the Transport Committee of the House of Commons and the Railways Group of the European Conference of Ministers of Transport (ECMT).

**Adolf K.Y. Ng** is an Associate Professor in the Department of Supply Chain Management, I.H. Asper School of Business, University of Manitoba, Canada. He obtained his DPhil from the University of Oxford, UK. Core research interests include transport geography and
regional development; port governance and management; maritime security; climate change and adaptation planning in transport infrastructure. He has more than 100 publications in leading journals, books, conference proceedings and professional publications. He is frequently invited by intergovernmental organizations to offer expert advice in port and transport development, such as the United Nations Conference on Trade and Development (UNCTAD), the United Nations Economic Commission for Europe (UNECE) and the European Commission (EC). Currently, he is also a Council Member of the International Association of Maritime Economists.

**Tilman Erich Platz** works for MARLO Consultants, a consultancy specialized in transport and logistics. He received his Diploma in Business Administration from the University of Mannheim, Germany, and his PhD from the Radboud University Nijmegen, the Netherlands. He worked for the German research association for intermodal transport SGKV, and was Director of Studies at the University of Cooperative Education in Bad Hersfeld, Germany.

**Kees Ruijgrok** is Professor in Transport and Logistics Management at the Tilburg Institute of Advanced Studies (TIAS) of Tilburg University, the Netherlands. Between 1986 and 2008 he headed TNO (Dutch Organization for Applied Scientific Research) research groups performing logistics research, and he has held other strategic positions at TNO during his career. He now acts as a strategic advisor, associated to TNO.

**Sergi Saurí** is Assistant Professor of Transportation at Universitat Politècnica de Catalunya (UPC) BarcelonaTech, Spain and Project Manager at the Centre for Innovation in Transportation (CENIT) at UPC. His research centres on maritime transportation and transport economy. He received his PhD and Bachelor’s degree in Civil Engineering from UPC and his Bachelor’s degree in Economics from the University of Barcelona, Spain. He is the author of several publications.

**Mateu Turró** holds the Chair of Transport and Spatial Development at the Universitat Politècnica de Catalunya (UPC) in Barcelona, Spain. He is Honorary Director of the European Investment Bank, where he worked between 1988 and 2009. He has authored numerous publications, including *Going Trans-European: Planning and Financing Transport Networks for Europe* (Pergamon, Elsevier, 1999) and *RAILPAG, Rail Project Evaluation Guidelines* (EIB, European Commission, 2005).

**Didier van de Velde** is researcher in public transport institutions at the Faculty of Technology, Policy and Management of Delft University of
