

Figures

1.1	Locational map of the Antarctic.	5
1.2	Locational map of the Arctic.	6
2.1	Maritime zones established by the United Nations Law of the Sea Convention.	21
3.1	Sketch profile depicting the measurement principles for constructing the outer edge of the continental margin and the outer limits of the continental shelf.	40
3.2	Map depicting seafloor topographic elements of the Arctic Ocean, agreed and disputed maritime boundaries within 200 nautical miles, and a likely scenario for maritime areas that may remain international seabed area, 'the Area' (polygons labelled 8), after the CLCS process is completed for all five Arctic states. The outer limit for Denmark/Greenland in the Eurasian basin is as tentatively presented on the website of GEUS (Denmark-GEUS 2012).	42
3.3	Areas beyond 200 nm covered by the submissions made by Australia, Argentina, Norway and the UK in the Antarctic Treaty Region. The locations of the two outer limits points, KER-ECS-732a and KER-ECS-960a, are indicated (see text for discussion). Map compiled by the author based on the Executive Summaries of the submitting states, summaries of the recommendations of the CLCS and information from UNEP Shelf Program: http://www.continentalshelf.org .	51
6.1	Map of Russia's Arctic maritime borders.	95
8.1	Area status on the Norwegian continental shelf.	134
12.1	Mapa Bicontinental de la República Argentina.	206
