
Acknowledgments

Several reviewers have volunteered to provide feedback. These are: Hala Sabri, Jafar Alavi, Ziad Swaidan, Kamal Naser, Hussain Rammal, Raza Mir, Azhar Kazmi, David Ramsey, Robert Stone and Yusuf Sidani. I am indebted for their time, hard work and suggestions. Likewise, in preparing the handbook, I had to consult with and seek assistance from several individuals. All have been very cooperative and supportive. My sincere appreciation is to Robert C. Camp, Dean at Eberly College of Business, Indiana University of Pennsylvania. Bob has shown unwavering commitment in supporting research and intellectual activities. Alan Sturmer, Executive Editor at Edward Elgar Publishing, was instrumental in initiating this project. His professional support has been invaluable. In addition, I am thankful to Aisha Bushby at Edward Elgar for her help and encouragement.

Furthermore, I would like to thank Dr Helen Bailie for her careful editing and useful comments on the manuscript. My graduate assistant, Katlyn Mae Mertens, did a great job in formatting the handbook. I am thankful to both Helen and Katlyn for their exceptional enthusiasm in working with me. In particular, my daughter, Yasmin, has been a source of joy and motivation.
