

Acknowledgments

Many thanks to all the people who helped create this book, particularly my co-authors who carved out time in their busy lives to put into words their experience and vision of how entrepreneurship and innovation are being expressed in their regions of the world and their own active involvement in fostering this process. Very deep thanks to Orna Berry, Dave Chapman, Jun-Ming Chen, Sven De Cleyn, Wim De Waele, Itxaso del-Palacio, Flavio Feferman, Florian Forster, Shigeo Kagami, Montserrat Pareja-Eastaway, Josep Piqué, Qin Lang, Carlos Scheel, Helmut Schönenberger, Manav Subodh, Virginia Trigo, Daniel Wasserteil, Phil Weilerstein and Chao-Tung Wen. Your dedication and persistence with the project has been an inspiration. It has been my privilege and pleasure to work with you.

Thanks to Alan Sturmer, and the editorial team at Edward Elgar Publishing, who gave us guidance and assistance in navigating the course of bringing a collective idea into a published volume.

Most special thanks must be reserved for my collaborator and spouse, Shirley Fischer, who brought professional skills to editing each chapter submission, including my own. She was a total partner in this endeavour, investing hundreds of hours coordinating and advising all of the contributors. Without her help, this book would not have reached its final form.
