Bernhard Dachs

Bernhard Dachs is Senior Scientist at the Innovation Systems Department of AIT Austrian Institute of Technology, Vienna. He graduated in economics from the Vienna University of Economics and Business in 1996 and also holds a doctorate in economics (University of Bremen). He joined AIT in 2000. Bernhard Dachs' areas of expertise are the economics of innovation and technological change, in particular with regard to the internationalisation of R&D, innovation in services, and the analysis of national and international technology policy. To date, his work has been mostly empirical and applied. Papers based on this research has been published a number of international peer-reviewed journals.

Doris Hanzl-Weiss

Doris Hanzl-Weiss is Staff economist at The Vienna Institute for International Economic Studies (wiiw) where she is key expert in the area of industrial structural change and sectoral analysis in transition countries. In that function she worked on the manufacturing sector as well as on energy and services. She has been engaged in various research projects, e.g. for DG Enterprise (on EU manufacturing supply chains) and participated in a large research project within the 7th Framework programme on a world input-output database (WIOD). Ms. Hanzl-Weiss is currently mainly engaged in the research on the Slovakian economy, industrial development and also takes part in the FP7-project 'Growth-Innovation-Competitiveness. Fostering Cohesion in Central and Eastern Europe' (GRINCOH). She graduated in economics at the Vienna University of Economics and Business.

Franziska Kampik

Franziska Kampik is Credit Risk Manager at the Volksbank AG in Vienna. Before that, she worked at the Austrian Institute of Technology, where she has been engaged in various research projects for the European Commission. In her research she mainly focused on the internationalisation of R&D and innovation activities of multinational firms. Franziska Kampik graduated in economics at the Vienna University of Economics and Business.

Sandra Leitner

Sandra M. Leitner is an economist at the Vienna Institute for International Economic Studies (wiiw) in Vienna, Austria and a lecturer at Johannes Kepler University Linz, Austria. She holds a PhD in economics awarded by the University of Maastricht, the Netherlands and an MSc in Contemporary Asian Studies from the University of Amsterdam, the Netherlands. Her areas of research and expertise revolve around the economics of innovation and technical change and include issues of growth and business cycle theory, entrepreneurship, investment theory, labor markets and capital markets. She contributed to several EU framework projects (e.g. Micro-Dyn, WIOD) and projects for the EU Commission on issues of innovation and employment.

Thomas Scherngell

Thomas Scherngell is researcher at the Innovation Systems Department of AIT Austrian Institute of Technology and holds a post-doc fellowship (2011-2012) at the University of Macau, China. He received a *venia docendi* (habilitation) in Economic Geography and Regional Science from the Vienna University of Economics and Business in 2012. He received his M.A. in Economic Geography (Mag., 2003), and his PhD (Dr. rer. Nat., 2006) from the University of Vienna. Prior to working at AIT, Thomas Scherngell was a full time university assistant at the Department of Economic Geography and GIScience at the Vienna University of Economics and Business (2002-2007). He is an expert in economics of innovation and technological change as well as in regional science and spatial analysis. Over the past five years, his research focus was on the structure and dynamics of R&D networks, with a special focus on networks constituted under the heading of the European Framework Programmes (FPs). Further he has been working extensively on spatial analysis methods, with a special emphasis on spatial econometric methods, spatial interaction modelling, Social Network Analysis (SNA) and methods from statistical physics.

Robert Stehrer

Robert Stehrer is Senior Economist and Deputy Scientific Director at the The Vienna Institute for International Economic Studies (wiiw) and lecturer in economics at the University of Vienna. He studied economics at the Johannes Kepler University Linz, Austria, where he also worked as Assistant Professor and lecturer, and Sociology at the Institute for Advanced Studies (IAS) in Vienna. He holds a Ph.D. (Dr. rer.soc.oec) in economics and the *venia docendi* in economics from the University of Linz. His fields of research are international economics, technical change and labour markets.

Rajnish Tiwari

Rajnish Tiwari is Senior Research Fellow and Project Leader at the Institute for Technology and Innovation Management of the Hamburg University of Technology. He studied Business Administration at University of Hamburg specializing in International Management and Business Informatics. Rajnish holds a Ph.D. (Dr. rer. Pol.) in Innovation Management from Hamburg University of Technology, where he also teaches Intercultural Communication and Management. Main fields of his research are internationalisation of research and development, emergence of lead markets in developing countries, and frugal innovations. He has also published extensively on foreign direct investments by Indian companies in Germany.

Waltraud Urban

Waltraud Urban graduated in economics at the University of Vienna in 1973. She then became a lecturer at the Institute of Economics of the Vienna University of Technology. In the late 1970s, she joined the industrial department of the Austrian Institute of Economic Research (wifo), where she got interested in the newly industrialising economies (NIEs) in Asia. With the beginning of the economic reforms and the rise of China in the 1980s, her focus of interest shifted there. After several years as a researcher at the Austrian Institute for International Affairs (oiip), she joined the Vienna Institute for International Economic Studies (wiiw) in 1995, where she specialised in the Chinese economy and industrial restructuring in the Central- and East European countries. She has specialised on macroeconomic and industrial development in China, Asian regional economic cooperation and the relation between China and the EU. In 2011, she retired from her post at wiiw and is now a freelance economist. Besides, she is fellow at the Austrian Institute for Research on China and Southeast Asia. She has taken part in many international research projects, published many articles and given numerous lectures on China, including courses at various universities.

Georg Zahradnik

Georg Zahradnik is Junior Scientist at the Innovation Systems Department of AIT Austrian Institute of Technology, Vienna. He graduated in economics at the Vienna University of Economics and Business. He is experienced in data gathering and databases, econometrics, and has worked on the internationalisation of research activities, the European ICT sector and on sectoral innovation systems in Europe. He has been involved in a number of consultancy and research projects for Austrian as well as international clients.
