Figures

7.1 Eskom installed capacity, 2016
8.1 Policy interactions type
15.1 Accounting for crop production in an ecosystem accounting framework
15.2 Total suspended solids generated by 21 sub-watersheds of Laguna de Bay (kilo tons per year)
15.3 Lake showing flood retention service vis-à-vis flood plain areas (2014)
20.1 Renewable energy installed capacity in 2016: selected countries (unit gigawatts)
20.2 Global production of solar photovoltaics modules by major countries/regions, 2005 and 2015
20.3 Top wind turbine manufacturers and regional distribution of commissioned capacities, 2015
23.1 The geography of uranium supply and demand
23.2 The ownership structure in uranium mining
23.3 Nuclear fuel cycle global capacity
23.4 Reactor construction waves by main consumers and decades
25.1 Renewables and non-renewables in Brazil’s domestic energy supply (1970–2015)
25.2 Brazil’s energy mix (2015)
25.3 Evolution of the dependence on foreign oil and refined products (2005–2014)
25.4 Brazil: dry natural gas production and consumption (trillion cubic feet)
25.5 Evolution of the amount of oil exported by Brazil (2005–2014)
25.6 Brazil: production of sugar cane and ethanol
25.7 Brazil: total biodiesel production (m³)
