Acknowledgements

We wish to acknowledge a number of institutions and people who have supported our work in this book project. First of all, this book is an outcome of a four-year research project ‘Leadership in “Place and Space”’ (2011–14) funded by the Academy of Finland, which we are deeply grateful for. We would also like to extend our thanks to The Finnish Work Environment Fund, The Foundation for Economic Education and the Kiinko Real Estate Education. Furthermore, University of Tampere, Finland, Norwegian Business School BI, New York University, Stern School of Business, The Finnish Embassies in Jakarta and New York, and various coworking spaces in New York and Bellissimi, Italy have provided inspiring work environments for us. At Edward Elgar Publishing, a number of people have helped us finalize the book. Our thanks go to Fran O’Sullivan, Aisha Bushby, Megan Ballantyne, Karen Jones, Suzanne Giles and Dee Compson for their invaluable help to finish this project.
