

Tables

1.1	Summary of environmental tax and eco-fee design components	13
2.1	2011 snapshot of macroeconomic indicators	31
2.2	2011 snapshot of macroeconomic indicators with taxes re-invested	31
2A.1	Standard macroeconomic model	35
2A.2	Environmental macroeconomic model	37
3.1	Different forms of the precautionary principle	46
6.1	Output changes of EITE sectors under CTax_J and BTA_J	88
6.2	National emissions changes under CTax_J, BTA_J and NIAfT_J	89
9.1	Demand and supply of emission allowances (in million tons of CO ₂ equivalent)	129
9.2	Allowance allocation estimates, trading period 3 (in million tons of CO ₂ equivalent)	130
9.3	Policy instrument properties	140
14.1	Resource tax rates before and after the Xinjiang resource tax reform	217
14.2	Local fiscal revenue in Xinjiang autonomous prefectures and districts (units: yuan, %)	221
15.1	Simulation results	236
16.1	Trend of implementation of industrial waste tax, total amount of industrial waste and economic output in Japan	248
16.2	Descriptive statistics of variables	250
16.3	Estimation results of generation (estimated without insignificant variables)	252
16.4	Estimation results of final disposal excluding waste from outside the prefecture (estimated without insignificant variables)	253
16.5	Estimation results of final disposal including waste from outside the prefecture (estimated without insignificant variables)	255
17.1	Composition of municipal solid waste in India	262

17.2	Time taken for waste material to degrade	262
18.1	Auction results 2012–2013 (US\$)	280
18.2	The environmental and economic effects of BC's carbon tax (base 2007–2008)	283
19.1	Distribution of respondents by company characteristics	293
19.2	Companies' evaluations of merits of GHG ETS	295
19.3	Regression results of companies' evaluations of merits of GHG ETS	296
19.4	Companies' evaluations of negative aspects of GHG ETS	298
19.5	Regression results of companies' evaluations of negative aspects of GHG ETS	299
19.6	Companies' preparations for GHG ETS	300
19.7	Companies' behavioral changes in response to GHG ETS	301
19.8	Barriers of companies for the implementation of GHG ETS	303
19.9	Companies' expectations for GHG ETS	304
