Contributors

Alan Boyle is Professor of Public International Law at the University of Edinburgh School of Law. He teaches international law, international environmental law and law of the sea. His publications include, among others, *International Law and the Environment* (with Patricia Birnie and Catherine Redgwell) (Oxford University Press, 2009) and *The Making of International Law* (with Christine Chinkin) (Oxford University Press, 2007). He practises international law from Essex Court Chambers, London, in recent or current cases including *Pulp Mills on the River Uruguay* (International Court of Justice), *Aerial Spraying* (International Court of Justice), *Bay of Bengal Maritime Boundaries* (International Tribunal for the Law of the Sea and Permanent Court of Arbitration), *Japanese Whaling* (International Court of Justice), *Chagos Islands* (Permanent Court of Arbitration) and *South China Sea Case* (Permanent Court of Arbitration).

Hans Christian Bugge is Professor Emeritus of Environmental Law at the Department of Public and International Law, University of Oslo. He holds a doctorate in regional planning from the Université de Paris II and is Juris Doctor from the University of Oslo on a thesis on responsibility for pollution in Norwegian law. In 1998 he was appointed Professor of Environmental Law. Prior to becoming an academic lawyer in 1991, he held various senior positions including Director-General of Pollution Control Authority and Director-General of the Department for Urban and Regional Planning, Norway’s Ministry of the Environment (1972–1982); Secretary General of Redd Barna running humanitarian and development projects in Asia, Africa and Central America (1982–1991); and State Secretary (Deputy Minister) for Development Cooperation and personal advisor to Prime Minister Gro Harlem Brundtland in her work as Chair of the World Commission on Environment and Development (1986–1987). He has been Vice Chair of the Board of the National Research Council of Norway, Dean for Research at the Faculty of Law and Chair of the Faculty’s Interdisciplinary Research Group in Natural Resources Law. He has lectured and written extensively on national and international environmental law and sustainable development.
Günther Handl is the Eberhard P. Deutsch Professor of Public International Law at Tulane University Law School. He holds law degrees from the University of Graz (Dr. iur.), Cambridge (LLB) and Yale (SJD). He has been a Fellow at the Max Planck Institute for Comparative Public Law and International Law in Heidelberg, Germany and has taught at several other law schools in the United States, Canada, Japan and Europe. He is the founder and former editor-in-chief of the Yearbook of International Environmental Law, and author of many books and articles in the field of public international law, international environmental law and law of the sea. Professor Handl is the recipient of a number of awards, including the Prix Elisabeth Haub 1997. He has served in an advisory capacity to a number of governments, as a consultant to various international organisations, including the United Nations Environment Programme, the Organisation for Economic Co-operation and Development, the Asian Development Bank and the World Bank, as well as a lecturer for the United Nations Codification Division, Office of Legal Affairs and The Hague Academy of International Law.

Lan Hua is Associate Professor of Faculty of International Law, China University of Political Science and Law (CUPL). She holds law degrees from Wuhan University Law School (LLM and JSD) and Nanchang University Law School (LLB). She teaches international law, EU case study, international organisations, legal English, and Chinese and WTO law. She has served for many years as the faculty advisor and coach of the CUPL teams in the Philip C Jessup International Law Moot Court Competition. Her current research interests include international environmental law, European law and WTO law. She has published numerous articles and book chapters and been involved in many research projects on international environmental law.

Youna Lyons is a Senior Research Fellow at CIL. Her primary research areas are offshore oil and gas in Southeast Asia, including decommissioning and the prospects for rigs-to-reefs, the use of satellite imagery to inform marine environmental management through habitat mapping and maritime boundary disputes on remote features, the protection of marine sensitive environments in the seas of Southeast Asia and the underlying legal and institutional governance framework. Prior to this, she created and led the private international law practice of the Litigation and Arbitration Group at Clifford Chance (Paris office), one of the world’s leading law firms, for more than 12 years. Passionate about the ocean, she was trained in marine ecology and policy at the College of Ocean and Fisheries of the University of Washington where she obtained a Master’s degree in Marine Affairs. Her dual expertise in law and marine sciences
uniquely position her to integrate these fields for marine policy-making purposes. In addition, she focuses on developing industry-relevant research and on involving the industry in marine policy proposals.

Stephen C McCaffrey is Distinguished Professor of Law at the University of the Pacific, McGeorge School of Law. He served two terms on the International Law Commission, chaired that body for one of its sessions and was the Commission’s special rapporteur on international watercourses. He has served as Counsel to States in cases before the International Court of Justice and the Permanent Court of Arbitration.

Jacqueline Peel is Professor at the Melbourne Law School. She holds a Bachelor of Science and a Bachelor of Laws (Hon I) from the University of Queensland, a Master of Laws from New York University (NYU) where she was a Fulbright Scholar, and a PhD in law from the University of Melbourne. Her teaching and research interests lie in the areas of environmental law, risk regulation and the role of science in international law and climate change law. She has published numerous articles and several books on these topics, including the third edition of Principles of International Environmental Law (with Philippe Sands), Australian Climate Law in Global Context (with Alexander Zahar and Lee Godden), Environmental Law: Scientific, Policy and Regulatory Dimensions (with Lee Godden), Science and Risk Regulation in International Law and The Precautionary Principle in Practice. Professor Peel was an expert member of the International Law Association’s Committee on the Legal Principles relating to Climate Change, acting as Rapporteur of that Committee during the latter half of 2012. She has also been the recipient of several awards and fellowships, including a Hauser Research Scholarship and Emile Noel Fellowship at NYU, a Research Associateship from the United States Studies Centre, and two Australian Research Council grants on climate change law-related topics. During 2013–2015, Professor Peel was a Visiting Scholar at the Woods Institute for the Environment at Stanford University.

Catherine Redgwell is Chichele Professor of Public International Law at the University of Oxford and a Fellow of All Souls College. Other affiliations include membership of the Greenwich Forum, the Council of the British Branch of the International Law Association, the International Bar Association’s Academic Advisory Group of the Section on Energy, Environment, Natural Resources and Infrastructure Law, and the International Bar Association’s Climate Change Justice and Human Rights
Task Force. Formerly the general editor of the *International and Comparative Law Quarterly*, she is currently joint general editor of the *British Yearbook of International Law* and co-editor of *Oxford Monographs in International Law*. Professor Redgwell has published extensively in public international law, particularly in the areas of international environmental law, international energy law, law of the sea and treaty law. Her recent publications include the co-authored third edition of *International Law and the Environment* (Oxford University Press, 2009), *Lyster's International Wildlife Law* (Cambridge University Press, 2010) and *Energy Law in Europe* (Oxford University Press, 2014). She is currently co-investigator in a two-year (2012–2014) research project on Climate Geoengineering Governance funded by the Economic and Social Research Council and Arts and Humanities Research Council.

**Nicholas A Robinson** is the University Professor for the Environment at Pace University, the Gilbert and Sarah Kerlin Distinguished Professor of Environmental Law Emeritus at Pace University School of Law and the Professor Adjunct at the Yale University School of Forestry & Environmental Studies. He is also the Co-Director of the Center for Environmental Legal Studies. Professor Robinson has developed environmental law since 1969 when he was named to the Legal Advisory Committee of the President’s Council on Environmental Quality. He has practised environmental law in law firms for municipalities and as general counsel of the New York State Department of Environmental Conservation. He drafted New York’s wetlands and wild bird laws and was the first chairman of both the statutory Freshwater Wetlands Appeals Board and Greenway Heritage Conservancy for the Hudson River Valley. He has served as legal advisor and chairman of the Commission on Environmental Law of the International Union for the Conservation of Nature and Natural Resources, engaged in drafting treaties and counselled different countries on the preparation of their environmental laws. He founded Pace’s environmental law programmes, edited the proceedings of the 1992 United Nations Earth Summit and is author of several books and articles. He teaches a number of environmental law courses. He served as James D. Hopkins Professor of Law during the 1991–1993 academic years.

**Laode M Syarif** is a Senior Lecturer at Hasanuddin University Faculty of Law. He also serves as a guest lecturer at the University of South Pacific, Vanuatu and a principal trainer for the Supreme Court of Indonesia in environmental law since 2007. Syarif is a Senior Advisor on Justice and Environmental Governance at the Partnership for Governance
Reform in Indonesia, where he develops and manages several environmental projects on sustainable forest management, climate change and environmental law enforcement. He also develops and manages several anti-corruption and good governance programmes with various national agencies and non-governmental organisations. As a senior advisor, he works closely with donor communities, such as US Agency for International Development, Australian Agency for International Development, World Bank, UN Development Programme (UNDP), UN Office on Drugs and Crime, Danida and the Norwegian Embassy, among others. He has published widely on atmospheric pollution, forestry, fisheries, biodiversity and REDD+. He is also one of the drafters of Indonesian Law No 32/2009 on Environmental Management and Protection. He has a Bachelor of Laws (SH) from Hasanuddin University, a Master of Laws (LLM) from Queensland University of Technology, Brisbane and his PhD from Sydney Law School at the University of Sydney.

Alan Khee-Jin Tan is Professor of Law at NUS. An alumnus of the NUS and Yale Law School, he researches and teaches aviation law, maritime law and environmental law. His book on marine environmental law and the shipping industry, Vessel-Source Marine Pollution: The Law and Politics of International Regulation, was published by Cambridge University Press. Professor Tan has also written on Indonesia’s State responsibility for the transboundary impact of forest fires and the problems of decentralisation and natural resource management in Indonesia. These writings have appeared in journals such as the International and Comparative Law Quarterly and New York University’s Environmental Law Journal. In 2007, he was co-editor of a landmark multi-disciplinary work, Biodiversity and Human Livelihoods in Protected Areas: Case Studies from the Malay Archipelago, published by Cambridge University Press. He has also advised the UNDP and the government of Vietnam on legal issues pertaining to the environment and natural resource management.

Simon Tay is a public intellectual as well as private advisor to major corporations and policy-makers. He is concurrently Chairman of the Singapore Institute of International Affairs, the country’s oldest think tank and founding member of the ASEAN network of think tanks. He is also an Associate Professor, teaching international law at NUS. His commentaries feature regularly in newspapers such as TODAY, Jakarta Post and the China Daily. He also appears on television with the BBC, CNN, Bloomberg, CNBC and Channel News Asia. Professor Tay is also a Senior Consultant at WongPartnership, a leading Asian law firm. He serves on the Global Advisory Boards for Toyota Motor Corporation and
MUFG. Furthermore, he sits as a board member for two major Singaporean corporations, Hyflux Ltd and the Far East Organization. From 1992 to 2008, he served in public positions for Singapore, including as Chairman of the National Environment Agency, reporting to the Minister as an independent Member of Parliament and coordinating the Singapore Volunteers Overseas. He has taught as a visiting professor at Yale University, the Fletcher School and Harvard Law School. Professor Tay is a prize-winning author of stories and poems and his novel *City of Small Blessings* was awarded the Singapore Literature Prize in 2010. He graduated in law from NUS (1986), where he was president of the student union for three terms, and from Harvard Law School (1993), where he won the Laylin Prize for the best thesis in international law.
