Contributors

Laurence Boisson de Chazournes is Professor at the University of Geneva and the Director of the Platform for International Water Law (Geneva Water Hub: https://www.genevawaterhub.org/fr). She has published widely in the areas of international environmental law, international water law and dispute settlement. She received the Elizabeth Haub Prize for Environmental Law (2008) and she is a member of the Global High-Level Panel on Water and Peace. She is also a counsel before the International Court of Justice (ICJ) and has acted in renowned international environmental law cases (Legality of the Threat or Use of Nuclear Weapons (1996), Pulp Mills on the River Uruguay (2010) and Whaling in the Antarctic (2014)).

Lucius Caflisch is Professor Emeritus and former Director of the Graduate Institute of International and Development Studies, Geneva. He was the Legal Adviser of the Department of Foreign Relations of the Swiss Confederation, a judge at the European Court of Human Rights, and member of the International Law Commission of the United Nations.

Lilian del Castillo Laborde, Public International Law Chair at the University of Buenos Aires (UBA) School of Law, Member of the Academy of Environmental Sciences of Argentina, Member of the National Academy of Sciences of Buenos Aires, former Director of the La Plata Basin Office (1984–99) and La Plata Basin Institutional Coordination (2000–10), Ministry of Foreign Affairs, Argentina.

Maaria Curlier has an extensive background in editing, research, website management and development, as well as conference and workshop hosting. Fluent in three languages, including French, she has worked in the mining, mineral and exploration sectors, international relations, international marine and fresh water law and governance, and coastal zone management. She recently was a key member of a team that developed a multi-year Global Environment Facility project in charge of research, editing and website management.

Joseph W. Dellapenna is retired professor of law having taught in the United States and elsewhere for more than 40 years. He has practiced, taught, and written about water issues for this entire period, frequently consulting with governments on water issues. He contributes about half of the treatise Waters and Water Rights, the standard work on water law in the United States. As Rapporteur for the Water Resources Committee of the International Law Association, he led the drafting of the Berlin Rules on Water Resources that replaced the Helsinki Rules on the Uses of the Waters of International Rivers. He directs the Model Water Code Project of the American Society of Civil
Engineers, which has produced two Model Water Codes (for regulated riparian and appropriative rights) as well as model interstate water compacts.

Riley T. Denoon is a doctoral student under Professor Stephen C. McCaffrey at the University of the Pacific, McGeorge School of Law and a Barrister and Solicitor from British Columbia and Alberta, Canada. His current areas of work and publication centre on the law of transboundary watercourses, public international law, international dispute resolution, local stakeholder engagement and safeguard policies of multilateral investment banks. He holds a J.D. from the University of British Columbia and a L.L.M. from the University of the Pacific, McGeorge School of Law.

Gian Maria Farnelli, Ph.D., is former post-doc fellow in International Law at the Department of Legal Studies of the University of Bologna. He has published in English and Italian on various topic of international law, with special regard to the law of the sea, jurisdictional immunities, environmental law and counter-terrorism.

Benjamin K. Guthrie is an attorney at Herbert Smith Freehills LLP. As a member of the firm’s international litigation and arbitration practice at Foley Hoag LLP, he represented sovereign clients in disputes before a range of international tribunals. Benjamin has worked with scientific and technical experts before the International Court of Justice in the conjoined Certain Activities Carried Out by Nicaragua in the Border Area (Costa Rica v. Nicaragua) and Construction of a Road in Costa Rica Along the San Juan River (Nicaragua v. Costa Rica) cases.

Johan G. Lammers is former Legal Adviser of the Netherlands Ministry of Foreign Affairs. He represented the Netherlands in legal matters at the EU in Brussels, the Council of Europe in Strasbourg, at the UN in New York, and in proceedings before the International Court of Justice and in arbitrations with France and Belgium. He participated in negotiations for many conventions concerning protection of the environment. Dr. Lammers is a former Professor in Public International Law and International Environmental Law at the University of Amsterdam and is presently a member of the UNECE Water Convention’s Implementation Committee.

Rhett Larson is the Morrison Fellow in Water Law and Associate Professor at Arizona State University’s Sandra Day O’Connor College of Law. He is also a Senior Research Fellow with the Kyl Center for Water Policy. He received his J.D. from the University of Chicago Law School and his M.Sc. in Water Science, Policy, and Management from the University of Oxford. His research and teaching focuses on international and domestic water law and policy.

Christina Leb works as Senior Water Resources Specialist and Thematic Focal Point for Transboundary Waters at the World Bank and is an Associate Member of the Platform for International Water Law, housed at the University of Geneva. Christina holds a doctorate in international law from the University of Geneva. Her research work focuses on international water law and transboundary water governance. The views presented in the contributions to this book are hers alone and in no way reflect...
the position of the World Bank, its Board of Executive Directors or any of its member countries.

Daniel Barstow Magraw is President Emeritus of the Center for International Environmental Law (CIEL) and Professorial Lecturer and Senior Fellow at the Foreign Policy Institute at Johns Hopkins University’s School of Advanced International Studies (SAIS). He has worked in government, non-governmental organizations (NGOs), inter-governmental organizations, business and academia. He serves as a consultant to the United Nations regarding water, environment, human rights and investment law; and he was counsel to India in the Kishenganga River arbitration.

Stephen C. McCaffrey is Distinguished Professor of Law at the University of the Pacific, McGeorge School of Law. He completed two terms on the UN International Law Commission, served as the ILC’s chair and as its special rapporteur on international watercourses. He is the 2017 Stockholm Water Prize Laureate. Professor McCaffrey is a member of the Implementation Committee of the UNECE Water Convention. He has served as counsel to States in cases before the International Court of Justice and the Permanent Court of Arbitration and has published widely in the field.

Owen McIntyre is Professor, School of Law, University College Cork with research interests across a range of areas of environmental law. He serves as Chair of the IUCN-WCEL Specialist Group on Water and Wetlands, as a member of the Project Complaints Mechanism of the European Bank for Reconstruction and Development (EBRD), and as a member of the Irish statutory Aquaculture Licences Appeals Board. He recently completed two terms as a member of the Scientific Committee of the European Environment Agency.

María Milanés-Murcia is a Water Specialist for the Food and Agriculture Organization of the United Nations and an environmental lawyer. She has worked on international water management, irrigation policies and stakeholders arrangements in Nigeria, Spain, Mexico, U.S. and Iraq. Her work has involved direct cooperation with the U.S. and Mexican Sections of the International Boundary and Water Commission. She holds an LL.M. and J.S.D. in International Water Law from McGeorge School of Law, University of the Pacific, CA, USA; M.A. in Economics from New Mexico State University, USA and LL.B. from University of Murcia, Spain. She has also worked with scientific and technical experts before the International Court of Justice, in the Pulp Mills on the River Uruguay (Argentina v. Uruguay).

Makane Moïse Mbengue is Professor of International Law at the Faculty of Law of the University of Geneva. He is also an Affiliated Professor at Sciences Po Paris (School of Law) where he teaches General International Law and the Law of the World Trade Organization (WTO). He holds a Ph.D. in Public International Law from the University of Geneva. He was the Lead Expert for the negotiations and drafting of the Pan-African Investment Code (PAIC) in the context of the African Union. He has acted and acts as expert for the African Union, the United Nations Economic Commission for Africa, the United Nations Environment Programme (UNEP), the World Health
Organization (WHO), the World Bank, the International Labour Organization (ILO) and the International Institute for Sustainable Development (IISD) among others. Prof. Mbengue acts as counsel in disputes before international courts and tribunals and as adviser for governments in several fields of international law. He is the author of several publications in the field of international law.

Nwamaka Odili has been involved in the Law of Transboundary Water since 2010 after playing an active role towards her country, Nigeria, becoming a party to the UN Watercourses Convention. From then she became interested in International Water Law and proceeded to complete an LL.M program in Water Law at the University of Dundee, Scotland in 2015. She is a lawyer by profession and currently a State Counsel with the Federal Ministry of Justice Abuja, Nigeria.

Deepika Padmanabhan is a graduate student in the Politics department at New York University. She also has an M.A. in International Law from the School of Advanced International Studies, Johns Hopkins University. Previously, she worked on international education at Bridge International Academies and on development at the Coalition for Human Rights in Development

Richard K. Paisley is Director of the Global Transboundary International Waters Governance Research Initiative at the University of British Columbia, IAR, in Vancouver, Canada. His current research, teaching, graduate supervision and advisory interests include: international and national water and energy law, international and national environmental and natural resources law, negotiations, environmental conflict resolution and international business transactions. Richard has worked throughout Africa, Asia and the Americas and published extensively in the scholarly academic literature.

Cicely O. Parseghian spent ten years as an environmental attorney at Foley Hoag LLP, where she worked extensively with scientific and technical experts in various disputes before the International Court of Justice, including Pulp Mills on the River Uruguay (Argentina v. Uruguay); Aerial Herbicide Spraying (Ecuador v. Colombia); Certain Activities Carried Out by Nicaragua in the Border Area (Costa Rica v. Nicaragua); and Construction of a Road in Costa Rica Along the San Juan River (Nicaragua v. Costa Rica). She also worked with such experts in arbitrations before the International Centre for the Settlement of Investment Disputes, including regarding the environmental and social impacts of gold mining and natural gas projects, as well as the economics and effectiveness of tobacco control regulations.

Götz Reichert is Head of the Department on Environment, Energy and Climate Change at the Center for European Policy in Freiburg, Germany and a former legal consultant of the Legal Department of the World Bank in Washington D.C., USA. Dr Reichert’s research focuses on the relationship between international law and the law of the European Union and its member states. In this respect, his recent publications feature a monograph on Transboundary Water Cooperation in Europe.
Alistair Rieu-Clarke is a Professor at Northumbria Law School, Newcastle. His research, teaching and consultancy activities focus on exploring law’s contribution to ensuring that international watercourses are managed in an equitable and sustainable manner. His recent publications have included a User’s Guide related to the UN Watercourses Convention, and several journal papers that have explored the procedural aspects of large-scale infrastructure projects on transboundary rivers, such as the Mekong and the Nile.

Anna F.S. Russell is a visiting fellow at the Faculty of Law at the University of Oxford. She was formerly a supervising attorney at the Harvard Human Rights Program and the Louwes fellow and lecturer at Oxford. She has a doctorate in law from Oxford and has published widely in the fields of public international law and international development. She is a barrister and solicitor of the Law Society of Upper Canada, and has worked extensively in Latin America, Africa, Eastern Europe and Asia.

Salman M.A. Salman is the Editor-in-Chief of International Water Law journal, and a Fellow with the International Water Resources Association (IWRA). Until 2009, he served as the World Bank Adviser on Water Law and Policy. Prior to that he worked as a Legal Officer with the International Fund for Agricultural Development of the United Nations (IFAD) in Rome, Italy, and taught law at the University of Khartoum in Sudan. Dr Salman is the recipient of the IWRA Crystal Drop Award 2017, and has published extensively on issues related to water law and policy.

Stephen M. Schwebel served as a Special Rapporteur on the law of the non-navigational uses of international watercourses of the UN International Law Commission. He was a judge of the International Court of Justice 1981–2000 and president of the Court 1997–2000. He served as the presiding arbitrator in the Indus Waters Kishenganga Arbitration between Pakistan and India.

Attila Tanzi, Ph.D., Chair of International Law at the University of Bologna; Chairman of the Compliance Committee of the UNECE 1992 Water Convention; a Member of the PCA, a Member of the PCA specialised list of arbitrators for environmental disputes, Conciliator at the OSCE Court of Conciliation and Arbitration; Counsel or arbitrator in various inter-state and investment; adviser to governments and international organizations. He has held numerous academic positions at home and abroad and published extensively in English, Spanish, French and Italian.

A. Dan Tarlock received an A.B. and LL.B. from Stanford University, and he is currently University Distinguished Professor Emeritus, Illinois Tech Chicago-Kent of Law. He has taught, lectured and written widely in the fields of United States, comparative, and international water law, with an emphasis on aquatic ecosystem conservation and climate change adaptation.

Mara Tignino is Reader at the Faculty of Law and the Institute for Environmental Sciences of the University of Geneva and Coordinator of the Platform for International Water Law at the Geneva Water Hub. She holds a Ph.D. in International Law from the
Graduate Institute of International and Development Studies. Dr Tignino has been Visiting Professor at the Renmin University of China, the University of Barcelona, the Libera Università Internazionale degli Studi Sociali and the Catholic University of Lille. She was also Visiting Scholar at the George Washington University School of Law in Washington D.C. Dr Tignino acts as an expert and legal adviser for states, international and non-governmental organizations (Inter-American Development Bank, UNEP, UNDP and OSCE). She has published in the fields of international water law, the law of international organisations, international humanitarian law and human rights.

**Patsorn Udomritthiruj** has an M.A. from the Johns Hopkins University School of Advanced International Studies (SAIS) in International Relations and Economics, and a B.A. from Williams College in Biology and Political Science. She currently works in the business and human rights field, at a multi-stakeholder initiative in Washington D.C. supporting businesses in developing their social compliance programs to ensure that fair labour standards are instituted and followed in their supply chains.

**Kishor Uprety** who holds a DES and a Doctorate from Sorbonne University (Paris), is an international lawyer. Between 1992–2017, he worked for the World Bank’s legal department in Washington D.C, and between 1988–91, for IFAD (Rome). Prior to 1988, he was a lecturer of law, an in-house counsel and a private attorney (in Nepal). Dr. Uprety has authored (and co-authored) 12 books (three translated into French, Bulgarian and Chinese) and about two dozen articles on various themes of international law of development, transit regime, international rivers, water security, combat against corruption, globalizing justice, and design of multi-country projects.

**Sergei Vinogradov** works at the Centre for Energy, Petroleum and Mineral Law and Policy, University of Dundee, UK. He is also a Visiting Professor of the China Institute of Boundaries and Ocean Studies (University of Wuhan) and MGIMO-University (Moscow). His main area of expertise is international law of natural resources and environmental law. He has published extensively on regulation of transboundary watercourses, protection of the marine environment, petroleum activities, and cross-border energy infrastructure. Dr Vinogradov has advised governments, international organizations of the UN system, and drafted and negotiated agreements for transboundary watercourses and regional seas in different parts of the world.

**Inga T. Winkler** is a lecturer at the Institute for the Study of Human Rights, Columbia University, and Director of Undergraduate Studies of the Human Rights Program. Previously, she was the Legal Adviser to the UN Special Rapporteur on the Human Rights to Water and Sanitation.

**Patricia Wouters** (B.A.; LL.B, University of Ottawa, Canada; LL.M, Berkeley School of Law, UC Berkeley, USA; DES, Ph.D. (international law), IUHEI, University of Geneva, Switzerland), founding director, China International Water Law programme, Xiamen Law School, University of Xiamen, China; founding director, Dundee UNESCO Centre for Water Law and Policy, University of Dundee, Scotland, UK.
Professor Wouters continues to supervise Ph.D. students from around the world, who, together with the significant cohort of previously successful Ph.D. students, contribute to scholarship in the field of international (water) law. Professor Wouters has published extensively, convened numerous international symposia (including the first international water law symposium in China), served on numerous international committees and presented her research around the globe.

Yu Su is an assistant Professor at the School of Law at the Xiamen University, and also the founding member of the Chinese International Water Law research group (CIWL), where he teaches public international law, international water law, and international economic law. He received a Ph.D. in international law from the Xiamen University. His Ph.D. research focuses on devising a communicative framework in analyzing the normativity of international water law. His publication centers on China’s transboundary water issues.

Dinara R. Ziganshina is Deputy Director at the Scientific Information Centre of Interstate Commission for Water Coordination in Central Asia based in Tashkent, Uzbekistan. Dr Ziganshina holds a Ph.D. in International Water Law from the IHP-HELP Centre for Water Law, Policy and Science under the auspice of UNESCO, University of Dundee (UK). She served as Alternate Governor of the World Water Council and is currently a member of the Implementation Committee under the UNECE Convention on the Protection and Use of Transboundary Watercourses and International Lakes.
