From 1985 to 1990 he served as a research engineer and in the department of non-ferrous metals of the Metallurgical Research Institute, Albania. He obtained his PhD Degree in Applied Electrochemistry from the Institut National Polytechnique de Lorraine, France. Prior to joining ICN Business School in January 2000, he was an environmental consultant for 5 years. In 2001, The Minerals, Metals & Materials Society’s Extraction & Processing Division (TMS) awarded his co-authored paper, which was considered a notable contribution to the scientific understanding of the extraction and processing of nonferrous metals. He has published in journals such as *Metallurgical and Materials Transactions A*, *Education Permanente*, and *Revue Internationale de la Psychosociologie*. He is co-author of the book chapter, ‘Is Albania ready for a business school model: diagnosis and prospects, of business and management education in transitioning and developing countries’ (edited by John R. McIntyre and Ilan Alon, Routledge, 2004). He is also joint editor of a special edition of the *Multinational Business Review* dedicated to ‘Sustainable development and the multinational corporation as a tool of competitiveness’ (Volume 15, Issue 1, July 2007). Recently, he worked on a major international research project on ‘Multinationals and Sustainable Development’, leading to two major publications: *Multinational Enterprises and the Challenge of Sustainable Development* (E. Elgar Publishing, 2009) and ‘Sustainable development and the multinational corporation as a tool of competitiveness’ (Special issue, *Multinational Business Review*, 2007). Current interests focus on computer-based new teaching methods, management information systems and sustainable development.

**Vera Ivanaj** is an Associate Professor of Management Science in the Chemical Engineering School (ENSIC) of the Université de Lorraine, France. She received her MS in Economic Sciences from the University of Tirana, Albania, and her PhD in Management Science from the University of Nancy 2, France. Prior to joining ENSIC, she was a faculty member of the Business Administration Institute at the University of Metz, France, where she was in charge of the MBA program. She teaches courses in Strategic Decision Making, Change Management, Human Resource Management, Project Management, Conflict Resolution, Corporate Culture and Leadership for managers and engineers. She is an active instructor in executive education courses, conducting sessions on such topics as strategy formation, individual and team performance, empowerment, compensation and benefits, and other organizational performance issues. Her current research interests include strategic decision making, sustainable development, management education and diversity. She has published several articles and chapters on enhancing capabilities of
organizations to take decisions and to perform more effectively. Her work has appeared in various academic journals. Recently, she worked on a major international research project on ‘Multinationals and Sustainable Development’, leading to two major publications *Multinational Enterprises and the Challenge of Sustainable Development* (E. Elgar Publishing, 2009); ‘Sustainable development and the multinational corporation as a tool of competitiveness’ (Special issue, *Multinational Business Review*, 2007). Vera was a visiting professor at the Scheller College of Business of the Georgia Institute of Technology, Atlanta. She works as an advisor to several for-profit and not-for-profit organizations on issues such as strategic development and structural and managerial changes.

**Sanjeeb Kakoty** is a writer, a radio announcer, a documentary film maker, a carpenter and an aspiring change agent through targeted social interventions. He currently serves as a Faculty at IIM Shillong, India. After completing an MA and MPhil in history from North Eastern Hill University (NEHU) he went on to do his PhD by adopting technology and social formation to understand and explain historical change. He was a Post-Doctoral Fellow at CENISEAS, Guwahati, India, and has also done his MMP from IIM Ahmedabad, India. Apart from history, his other interest areas are Sustainability, Entrepreneurship, Communications and Governance. He is a member of the advisory board of the Kasturba Gandhi National Memorial Trust, which has been working for rural development in India for the last seven decades and more. He is also mentoring a group of former students in a not-for-profit social venture called TREE (Transformation Through Research, Education and Empowerment) Foundation, which is promoting education, sustainability and livelihoods, and Susconnect Pvt Ltd., which is working in the field of renewable energy.

**William Saung Woo Kang** is currently a senior consultant at a global consulting firm in analytics, specializing in business strategy and insight through data. He holds a Bachelor degree in Business Administration at Insper, São Paulo, Brazil, and an MSc Degree in Marketing at ISCTE-IUL, Lisbon, focusing his studies at corporate social responsibility and green marketing.

**Reginald ‘Reggie’ Leseane** is Associate Dean and Professor of CIS in the College of Business Administration at Savannah State University. He spent 20 years in the military where he specialized in electronic surveillance, radio communications and aircraft weapons systems equipment. During this time, he travelled throughout Europe including England, Spain, Germany and Turkey. After earning a BBA with an emphasis in Computer Information Systems from Savannah State University, he went
on to attain an MBA and later a Doctorate in Education from Georgia Southern University specializing in Math, Science, And Technology. Reginald is also a Microsoft Certified Systems Engineer.

**Joel Malen** is an Assistant Professor in the Institute of Innovation Research at Hitotsubashi University in Tokyo. He received his PhD in Strategic Management & Organization from the University of Minnesota in 2013. He also holds an MA (International Relations) from Johns Hopkins University, and a BA (Economics) from University of Rochester. His research examines how government and social forces influence firm strategy and performance, particularly in the context of environmental management. He focuses on how and why firms develop new strategies and modify existing strategies to internalize externalities associated with pollution. He has been living and working in Tokyo since 2013.

**Alfred Marcus** is the author of *Innovations in Sustainability: Fuel and Food* (Cambridge University Press, 2015), which won the Academy of Management ONE 2016 Outstanding Book Award. In 2016 he published *The Future of Technology Management and the Business Environment: Lessons on Innovation, Disruption, and Strategy Execution* with Pearson Press. He is the author, co-author or editor of 17 books. A major question Professor Marcus has addressed in his recent research is when does the market economy open up a space for sustainability. Factors he considers include the role of government policies and grants, corporate disclosure and transparency, and clean energy investing.

**John R. McIntyre** is founding Executive Director of the Georgia Tech CIBER (Center for International Business and Education, a national center of excellence), a full Professor of Management (Strategy and Innovation Area) in the Scheller College of Business, Atlanta, with a joint appointment in international relations in the Georgia Tech’s Sam Nunn School of International Affairs. He received his graduate education at Northeastern University, McGill University, Montreal, completing his PhD at the University of Georgia. Prior to joining Georgia Tech, he was Research Associate for International Management at the Dean Rusk Center of the University of Georgia Law School. He has published over 100 chapters and articles in academic reviews and trade journals, such as *Technology and Society, Public Administration Quarterly, International Management Review, Defence Analysis, Studies in Comparative and International Development, The Journal of European Marketing, Politique Internationale, International Executive, International Trade Journal, the Journal of Clean Production, and Entreprendre à l’international*, among others. He is author and co-editor of 11 books. He is also recipient of
the State of Georgia Governor’s Award for International Education; the Denning University-wide Faculty Globalization Award, Georgia Tech; he was made a Knight, National Order of Merit, France, 2009; he is proud to be an Honorary Professor at ICN Graduate Business School, Nancy–Metz, France. He has extensive consulting experience in the aluminium industry. He is co-founder of the Chinese Globalization Association Inc. and the Multinational Enterprise and Sustainable Development not-for-profit academic associations.

Petra Molthan-Hill leads the Green Academy at Nottingham Trent University, UK, developing curricular and extra-curricular activities in Education for Sustainable Development. Petra has won the Sustainability Professional Award in the UK & Ireland Green Gown Awards 2016. Petra is also the module leader for a Greenhouse Gas Management Project in Nottingham Business School, which has won the Guardian University Award 2015 in Business Partnership with Nottingham-based social enterprise NEP Energy Services Ltd. Riverside Bakery featured in her chapter was one of the earlier participants in this project.

Fernando Oliveira-Brochado is an invited lecturer of ISCTE-IUL, Lisbon, in the Marketing, Operations and General Management Department. He teaches curricular units such as Marketing Management, Fundamentals of Management and Quantitative Data Analysis in Marketing (BSc and MSc). He is an associate member of an academic and scientific research unit (ADVANCE) and a member of European Journal of Management Studies advisory board. Recently, he has also taught Research and Applied Research Techniques in the iDBA (International Doctoral Business and Administration Program).

Alpna Patel holds an MBA from Queen’s University, Kingston, Canada, and is fluently trilingual (English, French, Hindi). She has over 20 years of financial service experience in progressively senior roles. Her expertise lies in retail banking (including for small- and medium-size enterprises) with a specialty in lending, credit risk management, credit insurance and compliance. Finally, as a freelance sustainability researcher, writer and consultant, Alpna brings a much-needed industry perspective to the table in hopes of solving many of the climate change related issues confronting us today.

Maja Izabela Piecyk is a Reader in Logistics at the University of Westminster, London. She is a former Deputy Director of the Centre for Sustainable Road Freight, an EPSRC-funded research centre between Heriot-Watt (Edinburgh) and Cambridge Universities. She had also led Heriot-Watt’s contribution to the University Partner Programme funded
by the Transport Systems Catapult. Her research interests focus on the environmental performance and sustainability of freight transport operations. Much of her current work centres on the optimisation of supply chain networks, GHG (greenhouse gas) auditing of businesses and forecasting of long-term trends in energy demand and environmental impacts of logistics. Maja is a Chartered Member of the Chartered Institute of Logistics and Transport (UK), and a Fellow of the Higher Education Academy.

**Alex Shapiro** is a manager and independent researcher in Atlanta. He received his MBA from Georgia Institute of Technology, MA in Philosophy of Religion from the University of Chicago, and a degree in chemistry from the University of North Carolina at Chapel Hill. His research focuses on contemporary management issues in ethics, technology, sustainability, and corporate culture through the lens of modern European and American philosophy. He has worked in finance and operations in both small start-ups and large multinational enterprises.

**Paul Shrivastava** received his PhD from the University of Pittsburgh, Postgraduate Diploma in Management from the Indian Institute of Management, Calcutta, and BE (Mechanical) from Bhopal University, India. He is currently the Chief Sustainability Officer and Director of Sustainability Institute at Pennsylvania State University. He leads the International Research Chair for Arts and Sustainable Enterprise at ICN Business School, Nancy, France. Previous to this, he was Executive Director of the global environmental change research program Future Earth. He served as David O’Brien Distinguished Professor and Director of the David O’Brien Centre for Sustainable Enterprise at the John Molson School of Business, Concordia University, Montreal.

**Jessica Lagerstedt Wadin** is a researcher in Industrial Engineering and Management at the Faculty of Engineering at Lund University in Sweden. In 2003 she received her PhD in Eco-design from Royal Institute of Technology, Stockholm, and then spent more than 10 years in the railway manufacturing and technical consultancy business in the area of strategic analysis, project management, design methodology, training, marketing and sales. From 2013–16 she held a post-doctoral position at School of Economics and Management at Lund University. Her current research focuses on business model innovation for distributed solar energy.

**Thomas Walker** received a PhD degree in Finance and an MBA degree in Finance and International Business from Washington State University (WSU) in Pullman. In 2001, Dr Walker joined Concordia University, Montreal. Prior to his academic career, he worked for several years in
the German consulting and industrial sector at such firms as Mercedes-Benz, Utility Consultants International, Lahmeyer International, Telenet and KPMG Peat Marwick. His research interests are in sustainability and climate change, corporate governance, IPO underpricing, securities regulation and litigation, institutional ownership, and insider trading. In February 2015, Dr Walker was appointed as Interim Director of the David O’Brien Centre for Sustainable Enterprise. In addition, he has held the position of Associate Dean, Research and Research Programs, since July 2016. Among other things, he has served as Laurentian Bank Professor in Integrated Risk Management (2010–15), Chair of the finance department (2011–14), on the steering committee of the Montreal chapter of the Professional Risk Managers’ International Association (PRMIA), and as a member of Concordia’s senate finance committee.
