This volume presents the most important findings of Work Package 4 of the FP7-project *All Rights Reserved? Barriers to EUropean CITIZENship* (Grant agreement 320294; [www.beucitizen.eu](http://www.beucitizen.eu)). The editors and authors are very thankful for the generous funding of their research by the European Commission and would like to thank Sybe de Vries and Frans van Waarden for designing and overseeing the successful completion of the bEUcitizen project. Our thanks also goes to the whole bEUcitizen team at Utrecht University and the internal reviewers of the bEUcitizen project, as well as the members of the advisory board. A special thanks goes to Jo Shaw who provided valuable input for the proposal of this book.
