Nuha Al Sader is a PhD candidate in the Faculty of Architecture and the Built Environment at Delft University of Technology. Her research focuses on entrepreneurial citizenship in deprived urban neighborhoods in the Netherlands. The research is based on a variety of qualitative research methods such as discourse analysis of policy documents, qualitative in-depth interviews with policy makers and entrepreneurial citizens and case studies of citizen initiatives.

Katrin B. Anacker is currently an Associate Professor in the Schar School of Policy and Government at George Mason University. She is the lead Editor of the *Routledge Handbook of Housing Policy and Planning* (Routledge, 2019) and the lead Editor of *Introduction to Housing*, second edition (University of Georgia Press, 2018). She is also the Editor of *Housing and Society*, the former North American Editor of the *International Journal of Housing Policy* and the former Co-Editor of *Housing Policy Debate*.

Carlos J.L. Balsas, PhD, AICP, is an Assistant Professor in the Department of Geography and Planning at the University at Albany. He is an urban and regional planner by training. His main research interests are comparative urban revitalization, resilience, urban governance, non-motorized transportation planning and international planning. His most recent book is *Walkable Cities Revitalization, Vibrancy, and Sustainable Consumption* (SUNY Press, 2019).

Lionel J. Beaulieu is Director of the Purdue Center for Regional Development and Professor in the Department of Agricultural Economics. He has played key roles in launching a number of innovative national research and extension programs over the course of his career, including the National e-Commerce Extension Project, the Stronger Economies Together (SET) program (in partnership with US Department of Agriculture (USDA) Rural Development) and the Food Assistance Research Program (in collaboration with the USDA Economic Research Service). He has guided the Economic Development Administration's University Center work in Indiana since 2013. Beaulieu served as president of the Rural Sociological Society (2003–04) and president of the Community Development Society (2012–13). He is the recipient of a number of major awards, including the Distinguished Rural Sociologist Award from the Rural Sociological Society, inductee in the George Washington Carver Hall of Fame for Public Engagement at Tuskegee University, Honor Award for External Partnership from the US Secretary of Agriculture, National Institute of Food and Agriculture (NIFA)/USDA National Partnership Award for Multi-State Programs for his leadership of the SET program, Distinguished Career Award from the National Association of Community Development Extension Professionals and Community Development Achievement Award from the Community Development Society. Dr Beaulieu completed his MS degree and PhD degree in Sociology from Purdue University.

Gloria Bonilla-Santiago is a Board of Governors Distinguished Service Professor, Graduate Department of Public Policy and Administration at Rutgers, The State University of New

Jersey. She also directs the Community Leadership Center and is the overseer and Board Chair of the School. Throughout her academic career, she has established a track record in coordinating large-scale programs and private and public ventures that bring together external and internal stakeholders from a range of organizations, including government, business, nonprofits and philanthropic sectors at the local, national and international levels. As a leading scholar, researcher, speaker and international cross-cultural training consultant, Dr Santiago brings over 25 years of experience in program development and innovation, social entrepreneurship, research, fundraising, strategic planning, school development and leadership training. She writes and speaks widely on the areas of community development, public policy, school leadership and education, migration, diversity management and organizational leadership. In 2016–17, Dr Santiago was the recipient of the Fulbright Specialist Award for research and professional training in Paraguay, South America. In 2017, Dr Santiago received the Cabrini Ivy Young Willis and Martha Willis Dale Award, which recognizes women who have made outstanding contributions in the field of Public Affairs and Community Development. Dr Santiago is also the recipient of the 2018 Power of Woman Award, presented by Lupe Fund. In May 2018, Dr Santiago was the Keynote Speaker at the Cabrini University Commencement for the Master's Degree Students and received an Honorary Doctor of Humane Letters.

Lisa Cleckner is Director of the Finger Lakes Institute (FLI) at Hobart and William Smith Colleges (HWS). She holds a PhD in Environmental Health Sciences from the University of Michigan. She also holds an MBA from Simon Graduate School of Business at the University of Rochester. Her research and educational efforts have collaborated with various audiences including students, professionals, scientists, community members, government agencies and businesses. She has been a pivotal player in the creation and support of the Sustainable Community Development Program at HWS. She is also a member of the faculty in the Environmental Studies Department at HWS.

Elizabeth A. Dobis is a Postdoctoral Scholar in the area of Regional Economic Growth and Development with the Northeast Regional Center for Rural Development at the Pennsylvania State University. Her research interest is spatial economic analysis, particularly in the fields of demography, poverty and health. Prior to her current position, she worked with the Purdue Center for Regional Development as a graduate research assistant and postdoctoral scholar. She holds a PhD in Agricultural Economics from Purdue University specializing in Space, Health, and Population Economics (SHaPE), which she completed in 2017. Her dissertation explores growth patterns and interactions among cities within the American system of cities. She also holds an MS in Agricultural Economics from Purdue University, which she completed in 2011. Her master's thesis explores health care utilization of vulnerable and non-vulnerable populations in the United States and was awarded an Outstanding Master's Thesis – Honorable Mention award from the Agricultural and Applied Economics Association in 2012. She was also a recipient of the Frederick N. Andrews Fellowship from Purdue University. She holds a BA in Geography, an honors BS in Economics and a minor in Mathematics from the University of Minnesota – Twin Cities, which she completed in 2008.

Brenda M. Elias was awarded a Canada Mortgage and Housing Corporation Graduate Research Fellowship upon completing her Bachelor of Applied Science at the University

of Guelph. She obtained her Master of Science degree from the University of Guelph with specialty in housing and gerontology and has a Specialist Certificate in Aging, Graduate School of Social Work, University of Michigan. In 2009 she completed her PhD in Adult Education and Community Development at the Ontario Institute for Studies in Education (OISE), University of Toronto. Her thesis was on rural homelessness and subsequently she served as Project Coordinator for the Mental Health Commission of Canada on their Homelessness Research Initiative. In 2012, Brenda was a member of the Advisory Committee on the Law as it Affects Older Adults, with the Law Commission of Ontario and has been a 2018 faculty member of the Chang School of Continuing Education at Ryerson University for 5 years in the Non-profit and Voluntary Sector Management Program. For the past 15 years she has been teaching Foundations of Social Gerontology at the University of Guelph Humber degree program in Family and Community Social Sciences and is Professor and Coordinator of the Multidisciplinary Gerontology Certificate at Humber College School of Social and Community Services. Courses taught include Legislation for Social Services, Case Management, Canadian Political Process, Women and Aging at York University, Special Topics related to Indigenous Studies, Community Development and Social Policy. As an Ontario Public Servant for over 20 years Brenda has held many executive positions including 6 years as Director, Ministry of Health and Long-Term Care and Director of Economic Development and Communications for the Ontario Women's Directorate and more recently has provided consulting services on Leadership and Change and creating Age Friendly Communities to several national and provincial nonprofit boards. Brenda is interested in legal and ethical issues related to aging, social justice, community development, supportive housing (homelessness) and life span development, and has been primarily involved in policy development and community-based participatory research. She is currently Research Director for Reena, a nonprofit agency providing supportive housing to those individuals with intellectual challenges, and has served as a former Board Director with Abbeyfield of Canada, a nonprofit agency offering independent older adults a retirement housing option that balances privacy and companionship, and security and independence.

Kathleen Flowers earned her undergraduate degree in Communications from Stonehill College and her EdM in Higher Education Administration from the University at Buffalo. She joined Hobart and William Smith College in 2004 and is responsible for strategic leadership and management of the Center for Community Engagement and Service-Learning. Ms Flowers oversees the service-learning and community-based research programs, the Summer of Service internship program, and she co-facilitates the Faculty Service-Learning Advisory Council. Her purview also includes federal work-study tutoring programs, Alternative Spring Break trips and postgraduate service opportunities. She is an AmeriCorps VISTA alumna and serves on the board for five local nonprofit agencies.

Shadrack Frimpong, described by the late United Nations Secretary General, Mr Kofi Annan, as the “embodiment of youth leadership,” is a proud son of a peasant farmer and charcoal seller from rural Ghana. Frimpong secured a full scholarship to attend the University of Pennsylvania, later graduating as a University Scholar and one of five students in his graduating class to be awarded the \$150,000 President's Engagement Prize, Penn's highest honor. With the prize as seed funding, Mr Frimpong founded

Cocoa360 and pioneered the “farm-for-impact” model: a tuition-free girls’ school and hospital sustained by proceeds from a cocoa plantation. In less than 3 years of operation, Cocoa360 has grown to 30 full-time staff members, cared for 3,000 patients and reached over 35,000 farmers in eight communities. Cocoa360 currently educates 120 young girls and is poised to scale its model into three new communities in 2019. Mr Frimpong is a recipient of many other awards, including the prestigious Samuel Huntington Public Service Award; the Queen’s Young Leader Award; and the Ghana Legacy Honors, making him the youngest person ever to receive one of Ghana’s highest honors. In addition to his work with Cocoa360, Mr Frimpong is currently pursuing an MS in Nonprofit Leadership at the University of Pennsylvania’s School of Social Policy and Practice.

Julia Fursova is a doctoral candidate at York University, Faculty of Environmental Studies, Toronto, Canada. Her doctoral research examines community action for health justice in urban environments with the focus on the role of nonprofit organizations in advancing or impeding community action for health justice. The research integrates institutional ethnography and participatory action research. As a researcher, she is committed to anti-oppression principles and methodologies. For this reason, she chooses transparent processes and highly participatory methods of data collection and analysis, including participatory action research and arts-based methods. She has over 15 years of experience in nonprofit and public sectors in Canada and abroad. Her academic pursuits have been continuously influenced by her personal experience as an immigrant woman advocating for health equity and justice, as well as by her experience as a service provider in the nonprofit sector. As an immigrant woman, she experienced how one’s social location is produced through multiple aspects of positionality that are socially and politically constructed and depend on a geographical locale and socio-political context. Critical reflection on the changing social location within systems of power continuously informs her understanding of how privilege and oppression shape individual experiences. As an academic, she is committed to examining the dialectical relationship between an individual and a system with a goal to inform progressive social change.

Ivis García, AICP, PhD, is an Assistant Professor in the City and Metropolitan Planning Department at the University of Utah. She is a fellow and board member of the Asset-Based Community Development Institute at DePaul University, Chicago. García earned her PhD in Urban Planning and Policy from the University of Illinois at Chicago. She holds dual master’s degrees from the University of New Mexico in Community and Regional Planning and Latin American Studies and a bachelor’s degree in Environmental Sciences from Inter-American University in Puerto Rico.

Femida Handy is Professor of Social Policy at the School of Social Policy and Practice at the University of Pennsylvania and the Director of the PhD program in Social Welfare. Her research and teaching focus on the economics of the nonprofit sector, volunteering, philanthropy, nonprofit management, entrepreneurship and microfinance. Prior to being appointed as Editor-in-Chief of *Nonprofit and Voluntary Sector Quarterly* in 2010, the premier journal in the field, she served on the editorial board of several academic journals. Professor Handy has published widely in a variety of scientific journals on a variety of nonprofit-related topics, and her work has garnered many awards. Her most recent book, *Ethics for Social Impact* (Palgrave Publishing, 2018), focuses on ethical

decision-making for nonprofit leaders. Other recent books include *The Practice and Promise of Philanthropy in India* (Sage Publishing, 2016) and *The Palgrave Research Companion to Global Philanthropy* (Palgrave Publishing, 2015), which she co-edited. She has also written on environmental issues, including a children's book that introduces the concept of ecological footprint. Currently, Professor Handy's research projects include an NIH-funded project that investigates if and how autistic youth benefit by volunteering; research on the role of volunteering in the lives of immigrants; and a study of the transmission of values and behaviors across generations in three countries. Before coming to Penn, Professor Handy was Associate Professor at the Faculty of Environmental Studies at York University in Toronto, Canada.

Brandon Hofstedt is Associate Professor of Sustainable Community Development and Director of the Center for Rural Communities at Northland College since 2010. Currently, Dr Hofstedt is the Community Economic Development program manager with the Community Development Institute, Division of Extension at the University of Wisconsin, Madison. Dr Hofstedt has a PhD in Sociology from Iowa State University, and his research focuses on rural community sustainability and community resilience. He has extensive experience administering quantitative and qualitative methodologies to understand community issues and using social scientific data to inform community level decisions. He is the principal investigator and lead researcher of the Northwoods Quality of Life project.

Justin B. Hollander is a Professor of Urban and Environmental Policy and Planning and Director of the Certificate of Advanced Graduate Studies (CAGS) in Urban Justice and Sustainability at Tufts University. His research and teaching is in the areas of shrinking cities, Big Data, brownfields and the intersection between cognitive science and the design of cities. He is the author of seven books on urban planning and design, most recently *An Ordinary City: Planning for Growth and Decline in New Bedford, Massachusetts* (Palgrave, 2018) and *A Research Agenda for Shrinking Cities* (Edward Elgar, 2018). Professor Hollander has conducted extensive research exploring the relationship between urban development, planning, well-being and health, including work for the Cities of New York, Baltimore and Detroit, among others. His international research has been supported through grants from the Governments of Canada and Quebec, as well as through funding from Duy Tan University in Vietnam. He runs a podcast through iTunes, "Cognitive Urbanism," where he talks about the big ideas of urban planning and community development.

James G. Huff, Jr., PhD, serves as Associate Director and Associate Professor of Human Needs and Global Resources and Anthropology at Wheaton College (Wheaton, Illinois). His scholarly interests focus on international and rural community development, religion in Latin America, faith-rooted social movements and nongovernmental organizations (NGOs) and comprehensive community initiatives. He also has an interest in the pedagogy of study abroad programs and cross-cultural learning. His research examines the changing religious landscapes of contemporary Latin America, with a particular focus on the social and economic changes generated by the rapid growth of Pentecostal-charismatic forms of Christianity across the region. For the past decade he has regularly conducted ethnographic fieldwork in El Salvador where he has documented

the involvement of Pentecostal churches in community-based development projects. As an applied anthropologist, Dr Huff has worked with various NGOs and community-based organizations to evaluate the effectiveness of their programs to alleviate poverty and to strengthen human well-being and community resiliency.

M. Rezaul Islam, PhD, is a Professor in Social Work at the Institute of Social Welfare and Research, University of Dhaka, Bangladesh and International Academic Adviser at the Department of Social Administration and Justice, University of Malaya, Malaysia. He is actively involved in social work education and the professional development of social work in Bangladesh and Malaysia. He is a community development expert and he has numerous research works and publications in the community development field. His research focuses on the migrant labor force, human rights and poverty, nongovernmental organizations (NGOs) and community development, child welfare and social development, which is embedded by a human rights approach and inspired by people who are vulnerable and affected by structural causes of poverty, unemployment and inequalities.

Somayeh Khademi is a Visiting Lecturer at the Payam-e Noor University, Shiraz branch. Her main research interest is in sustainable urban development and urban neighborhoods. She is particularly interested in issues concerning social sustainability, the urban environment and studying the historic districts. Khademi is currently working on a research project on social sustainability in the field of urban neighborhoods. She studied for her bachelor degree in Social Planning at Shiraz University in 2008 and then pursued her master's degree in Urban and Regional Planning at the Art University of Isfahan and graduated in 2011. She then joined the Department of Geography and Urban Planning at the Kharazmi University in Tehran. She has taught courses such as an Introduction to Urbanization, Fundamentals of Urbanization, Urban Infrastructure and Facilities, Fundamentals and Methods of Urban Planning, Regional Planning, Ecology, Environmental Planning and Design and Environmental Psychology since 2015 as a visiting lecturer at the Payam-e Noor University, Shiraz branch. Also, she has conducted and supervised some of the final projects of bachelor students in the same university on issues like quality of life and urban vitality. As well as this, she has published some articles in the field of community development.

Reinout Kleinhaus is Associate Professor of Urban Regeneration and Neighbourhood Change at the Faculty of Architecture and the Built Environment, Delft University of Technology. His research interests and expertise include urban regeneration, social capital, citizens' self-organization, community entrepreneurship and citizen engagement. Reinout has published widely on neighborhood change, social implications of urban restructuring, community enterprise, co-production, online governance and the use of digital participatory platforms for co-production between citizens and governments.

Richard C. Knopf, PhD, is Professor of Community Resources and Development at Arizona State University (ASU) and serves as Director of ASU's Partnership for Community Development (PCD). His research has focused on grassroots community organizing, sustainable community development practices, life quality enhancement, sustainable livelihoods and sustainable economic growth. Dr Knopf is a recipient of the Community Development Achievement award from the Community Development

Society, and is known for his capacity to build innovative partnership among government organizations, NGOs, faith communities, businesses, environmental groups and other community-based organizations to help communities co-create collective vision and action to achieve that vision.

Patsy Kraeger is an Assistant Professor in the Master's Public Administration program at Georgia Southern University, in the College of Behavioral and Social Sciences, Department of Public and Nonprofit Studies. She received her PhD in Public Administration from Arizona State University (ASU), the School of Public Affairs, with a certificate in Nonprofit Leadership and Management from the School of Community Resources and Development. She also holds a master's degree in Nonprofit Studies from ASU, the School of Community Resource and Development. She has studied social enterprise, innovation and entrepreneurship at the European Summer School on Social Economy, the Department of Economics of the University of Bologna (Forli Campus), Italy and through the EMES Research Network, University of Trento, Italy. She holds a JD from Mercer University; and an AB from Sweet Briar College with a double major in history and international relations. She is a co-editor with Dr Rhonda Phillips in the first edition of the four volume series *Community Planning and Development (Critical Concepts in Built Environment)* (Routledge, 2017) and the lead co-editor for *New Dimensions in Community Well-Being* (Springer, 2017). She has published in the areas of community development and quality of life, philanthropy and public policy, nonprofit education and other related areas in various journals. Her primary research interests are focused on community development, the study of philanthropy vis-à-vis democracy as well as social enterprise in a public policy context.

Indraneel Kumar is the Regional Planner: GIS (Geographic Information System) and Spatial Analysis for the Purdue Center for Regional Development (PCRD). He received undergraduate and graduate degrees in Architecture, Urban and Regional Planning and Community Planning from India and the United States. Indraneel earned a PhD in Civil Engineering with a major in transportation and infrastructure systems from Purdue University in 2014. At PCRD, he focuses on regional economic analysis, socioeconomic data snapshots, GIS databases and spatial analysis. His two decades of work experience include comprehensive planning for large metropolitan regions, districts and counties in India and the United States. He has participated in several regional economic development research grants and projects funded by the US Economic Development Administration, Rural Development (RD) and Economic Research Service (ERS) of the US Department of Agriculture (USDA) and state agencies of Indiana, such as the Office of Community and Rural Affairs (OCRA) and Indiana State Department of Agriculture (ISDA). A few noted regional economic development projects where he has participated as a team member include industry and occupation clusters in the US, motorsports clusters in Indiana, Stronger Economies Together (SET) and Resilience to the Intergenerational Transmission of Poverty.

Robin Lewis serves as an Assistant Professor in the Environmental Studies Program at Hobart and William Smith Colleges in Geneva, New York where she offers courses on biodiversity, sustainability, qualitative methods and community development. She also serves as Chair of the Colleges' Sustainable Community Development Program. Many

of her courses integrate service-learning projects that focus on cultivating and sustaining reciprocal relationships between the Colleges and the broader Geneva community. In addition to her community-based work in the Finger Lakes region of upstate New York, Dr Lewis also conducts research on knowledge production and circulation in the field of bryology in collaboration with colleagues at the University of Tennessee – Knoxville. As a graduate student, she earned a Fulbright fellowship to Malaysia where she completed 13 months of ethnographic fieldwork. She completed her PhD in Geography at the University of Arizona in 2011.

Jerrold McGrath designs and delivers interventions in systems that are failing to meet the needs of those that are meant to be served by them. He works in the creative and cultural sector and his practice reintegrates fragmented disciplines and communities around issues of shared concern. He has developed partnerships, cross-sector collaborations and development programs to leverage the strengths of various sectors in addressing complex, systems-level social and cultural issues (hopelessness, economic inequality and city building). Jerrold is currently the Director of Programs for Artscape Daniels Launchpad, a 30,000-square-foot creative entrepreneurship hub in Toronto, Canada. He was previously the Director of Creative Ecology Leadership at the Banff Centre for Arts and Creativity and the Director of Innovation and Program Partnerships for leadership programming at the Banff Centre. Jerrold completed his master's in Strategic Innovation and Change at the University of Denver with a focus on strategy formulation in creative sector organizations. Jerrold writes on systems change and has been invited to speak at events such as C2-MTL; the Open Leadership Summit in Portland; Maker Faire Global in New York; the Association Forum of Chicagoland; and many more. Jerrold helped found the Toronto Arts Council Cultural Leader's Lab; ALT/Now; Hope Decoded, among 100 other programs. Jerrold is an ambassador for the STATE Festival in Berlin and is a BMW Foundation Responsible Leader.

Dyana P. Mason is an Assistant Professor at the University of Oregon's School of Planning, Public Policy and Management. Her research and teaching focus on nonprofit management and governance, including the use of diversity and inclusion practices, fundraising, community development and teaching nonprofit management. Her work has appeared in leading journals including *Nonprofit and Voluntary Sector Quarterly*, *Voluntas*, *Journal of Public Administration and Research and Theory* and the *International Journal of Cultural Policy*. She is interested in all things "nonprofit," and has also led study abroad courses to Southeast Asia and Argentina to study the role of nonprofit organizations in comparative context.

Abolfazl Meshkini is Associate Professor in Geography and Urban Planning at the Faculty of Humanities, Tarbiat Modares University, Tehran, Iran. He received his PhD from Shahid Beheshti University in Urban Geography. His main research interests are in housing and neighborhood, community development, urban development plans, Islamic cities and quality of urban environment. He has authored or co-authored several research papers in these fields for national and international conferences and peer-reviewed journals. He also has granted and conducted several projects on community and urban planning. Moreover, he has been supervisor of more than 100 academic projects, dissertations and theses. Dr Meshkini is credited with achieving awards and honors from several

private and public sector organizations in Iran. In addition, he is director and reviews editor of several scientific journals as well as academic associations.

Mostafa Norouzi graduated from the Geography and Urban Planning Department at Tarbiat Modares University, Tehran, Iran. His work focuses specifically on (1) the urban quality of life (residential environment satisfaction, housing quality, livability and well-being), (2) community development (community participation, housing and neighborhood planning, capacity building and social sustainable development), and (3) urban social geography (poverty, spatial justice, geographic disparities and access to services and resources in disadvantaged communities and distressed areas). He has presented and published several research papers in the same fields for national and international conferences and peer-reviewed journals. He also has conducted several projects on community planning and quality of life.

Max Page is Professor of Architecture and Director of Historic Preservation Initiatives at the University of Massachusetts (UMass) in Amherst. Professor Page directs the Master of Design in Historic Preservation program, which trains students for careers in historic preservation and related fields. He received his education at Yale University (BA, *magna cum laude* in History, 1988) and from the University of Pennsylvania (PhD, 1995). Professor Page teaches and writes about the history of cities and architecture. He has written or edited eight books on subjects ranging from the destruction and rebuilding of New York City, in reality and in the imagination, the urbanist Jane Jacobs, the history of historic preservation, the architecture of the UMass campus and the future of higher education.

C. Bjørn Peterson, PhD, is Senior Research Associate at the Partnership for Community Development at Arizona State University and Instructor in Transformational Leadership at Seattle University. His research has focused on the relationship between identity construction among community workers and the corresponding programs, projects and interventions of these individuals and groups. Dr Peterson is an international scholar-practitioner based in Seattle, Washington.

Rhonda Phillips, PhD, FAICP, is Dean of the Purdue Honors College and Professor in the Agricultural Economics Department. Previously, she served as Associate Dean at Arizona State University and as Professor and Director, School of Community Resources and Development. She also served as Senior Sustainability Scientist in Arizona State University's Global Institute of Sustainability and as affiliate faculty in the School of Public Affairs and School of Geographical Sciences and Urban Planning. Earlier in her career, she was a member of the faculty of the University of Florida's Urban and Regional Planning Department, held visiting appointments at the University of Vermont in the Community Development and Applied Economics Department and is a three-time Fulbright award recipient. As a planning and community and economic development specialist, community quality of life, development and well-being comprise the focus of her research and outreach activities. She is author or editor of 27 academic books, including *Introduction to Community Development* (Routledge, 2015) and *The Handbook of Community Well-Being Research* (Springer, 2017). Rhonda is former editor of the journal, *Community Development*, and is founding editor of the book series, *Community Development Research and Practice* and *Current Issues in Community Development*,

both in conjunction with the Community Development Society and Routledge. She is founding editor of the *International Journal of Community Well-Being*, published by Springer, and is launching a new journal, *Local Development & Society* with Taylor & Francis. Phillips' work prior to joining academe was in community and economic planning and development at the state, local and regional levels; she is a member of the College of Fellows of the American Institute of Certified Planners, nominated and inducted in 2016 for career achievements. Rhonda is past President of the International Society for Quality-of-Life Studies, www.isqols.org, and serves on the site visitor team of the national Planning Accreditation Board. She received her doctorate in city and regional planning and an MS in Economics from the Georgia Institute of Technology; and an MS in Economic Development and a BS in Geography from the University of Southern Mississippi. She was the first woman to graduate from the doctoral program in City and Regional Planning at the Georgia Institute of Technology.

Jason Reece is an Assistant Professor of City and Regional Planning in the Knowlton School at the Ohio State University. His research, teaching and professional experience focus on social equity in city planning, community development and public health. Reece has acted as an advisor and capacity builder to foundations, nonprofits, community organizations and government agencies. He has managed more than \$10 million in research initiatives and contributed to more than 110 scholarly or technical publications. His work has been featured in 41 media publications and he has been an invited guest speaker at more than 300 professional engagements. Reece has worked with partner organizations in more than 30 states in the US and acted as a capacity builder for the US Department of Housing and Urban Development Sustainable Communities Initiative for 4 years. He currently is President of the Board of Directors for the Parsons Avenue Community Development Corporation. Reece was formerly the Senior Associate Director and Director of Research for the Kirwan Institute for the Study of Race and Ethnicity at the Ohio State University. He established the Opportunity Communities program at the Institute, developed the opportunity mapping methodology and established the Institute's Health Equity program.

Mark Roseland is Director and Professor, School of Community Resources and Development, Arizona State University (ASU) and Senior Sustainability Scientist, Julie Ann Wrigley Global Institute of Sustainability at ASU. Before ASU, he was at Simon Fraser University (SFU) in Vancouver, Canada, where he was professor of planning in the School of Resource and Environmental Management and Director of the Centre for Sustainable Development. He is a Registered Professional Planner and full member of the Canadian Institute of Planners, and he has worked as Chief City Planner for a municipality in the Metro Vancouver area. He has been cited by the *Vancouver Sun* as "one of Vancouver's top 50 living public intellectuals" and has received both the SFU Sustainability Network Award for Excellence in Research on Sustainability and the SFU President's Award on Leadership in Sustainability. Dr Roseland lectures internationally and advises communities and governments on sustainable development policy and planning. His best-selling book *Toward Sustainable Communities: Solutions for Citizens and Their Governments* (New Society Publishers, 2012) is in its fourth edition. He is also the founder of Pando | Sustainable Communities, a multilingual online network to promote collaboration between sustainable communities researchers and practitioners.

Kazi Abdur Rouf is a Professor at Noble International University, a Research Associate in the Center for Learning Social Economy and Workplace at the University of Toronto and York Center for Asian Research (YCAR), and International Visiting Scholar in the School of Education at Indiana University Bloomington, USA. He is researching green and social business, women's development, nongovernmental organizations (NGOs) and community economic development. Kazi has worked in Grameen Bank, Bangladesh for more than two decades. He completed his PhD from the University of Toronto and a master's in Environmental Studies, York University, Canada. Kazi is researching on renewable energy, green social enterprise development, micro-financing student higher education financial aid, social safety nets, women's human rights development, community gardening, mini cooperatives and community development in Canada and in Bangladesh.

Allison R. Russell is a postdoctoral fellow at the School of Social Policy and Practice at the University of Pennsylvania. Her research focuses on volunteering, nonprofit management, equity and ethics in the nonprofit sector and civil society development around the world. Dr Russell's work appears in edited volumes and peer-reviewed journals related to nonprofit and voluntary sector studies, nonprofit and public management and community development. She is also the co-author of the book *Ethics for Social Impact* (Palgrave Publishers, 2018), with Femida Handy. Dr Russell served as interim Managing Editor and Editorial Assistant for the academic journal *Nonprofit and Voluntary Sector Quarterly* and is a 2017 recipient of the Association for Research on Nonprofit Organizations and Voluntary Action Emerging Scholars Award.

Robert Mark Silverman is a Professor in the Department of Urban and Regional Planning at the University at Buffalo (UB). His research focuses on fair and affordable housing, community development, the nonprofit sector and education reform.

Maria Spiliotopoulou is a PhD candidate at Simon Fraser University's School of Resource and Environmental Management and an instructor in the Sustainable Development Program. Maria's doctoral research aims to advance community sustainability theory by exploring the potential of urban productivity to holistically operationalize sustainable community development. Her goal is to contribute to the global discourse on implementing and assessing local sustainability and propose new ways to support the achievement of productive – and eventually sustainable – communities. Maria also has extensive work experience as an environmental consultant in Europe. Her most recent publications, co-authored with Dr Mark Roseland, include a chapter in the *Palgrave Handbook of Sustainability* (Palgrave Publishers, 2018) and a chapter in Elsevier Publishing's *Encyclopedia of Sustainable Technologies* (2017).

Camille Sutton-Brown is an Assistant Professor of Educational Research at Kennesaw State University in Georgia. She holds a PhD in Educational Policy Studies: Research, Measurement, and Statistics from Georgia State University and completed a 2-year postdoctoral fellowship in the Human Economy Programme at the University of Pretoria in South Africa. Camille's expertise lies in qualitative inquiry, participatory action research, visual methods, transnational feminism, international development and photovoice methodology. She has conducted research in several community-based development settings, including a multi-site photovoice study on women's empowerment in the context

of microfinance in Mali. Camille's current research agenda focuses on integrating democratic research processes to explore topics related to social justice.

Craig A. Talmage serves as a Visiting Assistant Professor of Entrepreneurial Studies at Hobart and William Smith Colleges in Geneva, New York. Entrepreneurial Studies is a new, fast-growing minor that officially started in the Spring of 2016. He teaches courses on economic principles, quantitative tools, social innovation, the history of entrepreneurship theory and the senior capstone experience. He seeks to empower community members, faculty, staff and students through the development of knowledge regarding entrepreneurship and skills that match that knowledge. He completed his PhD in Community Resources and Development at Arizona State University (ASU). At ASU, he worked for the Osher Lifelong Learning Institute, Partnership for Community Development and the Southwest Interdisciplinary Research Center. He still serves as a faculty associate for ASU where he teaches Community Resilience to Emergency Management and Homeland Security students in the School of Public Affairs. He is actively involved in the International Association for Community Development, the International Society for Quality-of-Life Studies and the Association for Research on Nonprofit Organizations and Voluntary Action.

Henry Louis Taylor, Jr. is a Professor in the Department of Urban and Regional Planning at the University at Buffalo (UB). His research focuses on a historical and contemporary analysis of distressed urban neighborhoods, social isolation and race and class issues among people of color, especially African Americans and Latinos.

Talya D. Thomas is a native of Houston, Texas. She attended Clark Atlanta University, where she obtained a bachelor's in Psychology, minor in business administration and a master's in Public Administration with a concentration in community and economic development. She attended Texas Southern University where she obtained her doctoral degree in Urban Planning and Environmental Policy, with a concentration in community development and housing. She has attended and presented at various conferences throughout the United States. Some of the conferences include: National Forum for Black Public Administrators (NFBPA), Conference of Minority Public Administrators (COMPA), Planners Network, Urban Affairs Association, Community Development Society and the International Association for Community Development. She is also very active in many community service organizations: NFBPA, Top Ladies of Distinction, Inc., American Planning Association (APA), Jack and Jill of America, Inc. and Delta Sigma Theta Sorority, Inc., just to name a few. She has various publications from the spectrum of emergency management to community development. Dr Thomas has a wide range of teaching experience with Houston Community College, LoneStar College and Texas Southern University, and is currently an Assistant Professor in the Department of Urban and Regional Planning at Jackson State University.

Leanne Townsend is a senior social scientist within the James Hutton Institute Social, Economic and Geographical Sciences group. She has expertise in the social and economic impacts of technologies and renewables in rural and international development settings. Currently, Leanne is leading research on the role of advisors and social networks in precision farming, and rural futures in relation to rapid digitization. Leanne also works on a number of projects concerned with energy in Sub-Saharan Africa, including community engagement in the development of solar energy systems in off-grid rural Kenya and Rwanda, and the impacts of blackouts in on-grid urban Nigeria. She is interested in rural and international development, agricultural innovation and digital and energy-based transformations. Leanne has worked with diverse societal and stakeholder groups with a focus on marginalization and social exclusion including Gypsy-Traveller communities, remote rural communities, traditional craftspeople in Scotland and rural and peri-urban communities in Kenya and Nigeria.

Eric Trevan is a Member of the Faculty (Tenure-Track) for The Evergreen State College with a focus on Public Administration, Non Profit Administration and Public Policy which supports his research focus of local and Tribal economies.
