Turki Alfahaid is a PhD student at *Universitat Autònoma de Barcelona*. He has a BA in industrial engineering from King Abdulaziz University. He also holds an MBA degree with a focus in finance from Barry University. Alfahaid has worked as a quality engineer, a teaching assistant and as an adviser in a business accelerator. Working with entrepreneurs in the business accelerator led to his interest in studying the phenomenon of entrepreneurship.

Abdullah Aljarodi is a PhD student in his senior year at *Universitat Autònoma de Barcelona*. He holds a BA in applied management and an MBA with a focus in entrepreneurship and technology management from the University of New Brunswick in Canada. Aljarodi has worked in different services and industrial companies and held an academic position in a Saudi university. His passionate areas of research are on the early stages of business development, and how institutional factors affect gender in entrepreneurship.

Claudia Alvarez is Associate Professor at the School of Management of the Universidad EAFIT (Colombia). She holds a PhD (International Doctorate in Entrepreneurship and Management) from the *Universitat Autònoma de Barcelona*. Her research focuses on entrepreneurship and institutions from a quantitative analysis perspective. She has several scholarly international publications, and is currently participating in various European and Latin American research projects (e.g. GEM, GUESSS).

Sebastian Aparicio is Assistant Professor in Entrepreneurship at Durham University Business School. He is also a research fellow at the Centre for University Entrepreneurship and the Centre for Entrepreneurship and Social Innovation Research (*Universitat Autònoma de Barcelona*), a senior research fellow in the Institute for Development Strategies at the O'Neill School of Public and Environmental Affairs (IDS-SPEA, Indiana University), and an external researcher at Fundación ECSIM (Medellin, Colombia). He conducts research on institutions, entrepreneurship, and economic development.

Since the end of 2017, **Elsa Breit** has been a PhD student at the University of Siegen at the Chair of Innovation and Competence Management. After completing her master's degree in entrepreneurship and SME management at the University of Siegen she worked in a management consultancy. After

her bachelor degree in industrial management at the European University of Applied Sciences in Brühl, she worked as a controller. The focus of her research is new work, leadership and organizational development.

In 2017, **Andreas Buhrandt** (MSc) was appointed managing director of the Siegen Institute for Corporate Taxation, Accounting and Business Law (SUWI). Since 2015 he has been pursuing his PhD and working as a research assistant at the chair of Business Auditing and Taxation under the supervision of Professor Heurung (University of Siegen). His research interest on the topic of 'taxation of family businesses' has motivated him to pursue a career in this field.

Débora de Castro Leal is a social designer, an economist for transition, and is passionate about dialogue. Graduating in data processing, she worked with technology for 15 years. Currently, she is studying for her PhD at the University of Siegen, where she is interested in how communities experience and deal with economic and technological pressures. She uses holistic approaches to understand and support digital and human connectivity in areas of post-conflict and social instability, and collaborates with communities in the Brazilian and Colombian Amazon.

Kerstin Ettl is Assistant Professor for entrepreneurial diversity and SME management at the University of Siegen in Germany, researching the interface of diversity, entrepreneurship, and management of small and medium-sized enterprises. Gender aspects in management are one of her core fields of expertise and she is passionate about women's entrepreneurship. Currently she is country vice president for Germany of the European Council for Small Business and Entrepreneurship (ECSB), and guest editor of an *International Journal of Entrepreneurial Venturing* special issue about concepts and facets of entrepreneurial diversity.

Since 2017, **Sina Feldermann** has been a PhD student at the University of Siegen at the Chair of Management Accounting and Control. Her passionate area of research is in behavioural accounting, especially the field of psychological ownership. She holds an MA in accounting, auditing, and taxation and has worked as consultant for several audit companies.

Since 2015, **Inga Haase** has been a researcher at the Chair for SME Management and Entrepreneurship at the University of Siegen where she completed her doctorate with summa cum laude in 2017. After finishing her studies in business management at the University of Siegen in 2009, she worked as an innovation manager and as the right hand to management of a German SME. Her primary research interests are innovation, communication, project management and embeddedness in the context of SMEs and entrepreneurship.

Jonas Janisch is a PhD student at the University of Siegen and a fellow at the SME Graduate School fast-track PhD programme. His research is focused on the performance and legitimization of new ventures and their business models. Besides his research, Janisch gained practical experience with the help of two internships in the automotive industry in Germany and the USA.

Philipp Köhn is a PhD student at the University of Siegen and a member of the Chair for Entrepreneurship and Family Business. His research field considers the concept of entrepreneurial orientation in family firms.

Tatiana Lopez is a PhD candidate at *Universitat Autònoma de Barcelona*, where she works as a researcher and teaching assistant in the business department. She finished her studies in economics and her master's studies in management (MSc, 2015–17) at EAFIT University (Colombia). Lopez also worked as a research assistant at EAFIT University coordinating for Colombia the Global University Entrepreneurial Student Spirit Survey project. Her primary research interest is to analyse how different institutions influence the individual's decisions to become an entrepreneur.

Anne Löscher is conducting research on the implications of the international financial sector and architecture for overall economic development. She pursues her PhD project at the University of Siegen and Leeds. Previously, she studied in Halle (Saale), Krakow and London. Her fields of interests are, among others, history of economic thought, monetary systems and development, currency hierarchy, foreign exchange shortages and financialisation.

Anna Müller has been a doctoral student and researcher at the Chair for SME and Entrepreneurship Management (University of Siegen) since April 2017. She completed her master's degree in sociology and empirical social research in 2015 and her bachelor's degree in social sciences at the University of Cologne in 2012. Her doctoral research deals with self- and external presentation of women entrepreneurs in 'new' and 'traditional' media. In 2018 she won the ECSB Best Doctoral Proposal Award at the RENT conference.

Since 2015, **Max Paschke** has been a doctoral student and researcher at the University of Siegen at the Chair for SME and Entrepreneurship Management. During this time, he has been involved in several research projects of the *Institut für Mittelstandsforschung (IfM) Bonn*. Prior to this, he studied SME management at the University of Siegen (MSc, 2013–15) and business sciences at the University of Bielefeld (BSc, 2009–13). His research interests cover small and medium-sized enterprises, as well as knowledge management and knowledge transfer.

Philipp Julian Ruf is a research assistant and PhD student from the Chair of Entrepreneurship and Family Businesses at the University of Siegen. He is

part of the SME graduate school and his research interests focus on the unique attributes of family firms, their behaviour and strategic decision-making.

Since 2017, **Julia Schnittker** has been an early career researcher at the University of Siegen at the chair for SME Management and Entrepreneurship. Currently, she is involved in a research project and investigates the career paths and decisions of women in STEM fields. Prior to this, she studied entrepreneurship and SME management (MSc) as well as business sciences (BSc) at the University of Siegen. She has presented her research at (inter)national conferences in the field of entrepreneurship and has also published conference material.

Christian Soost is Professor of Applied Statistics at the FOM University of Applied Sciences. His research interests are entrepreneurship, SME management, family business, and health care. He is also the founder of a statistical consulting business for SMEs.

David Urbano is Professor of Entrepreneurship at the Department of Business, School of Economics and Business, Deputy Director of the Centre for Entrepreneurship and Social Innovation Research (CREIS) (*Universitat Autònoma de Barcelona*), and ICREA-Academia Research Fellow. Also, he is a member of the Board of Directors in the European Council of Small Business and Entrepreneurship (ECSB). His research focuses on the analysis of factors affecting entrepreneurship in different contexts, using institutional economics as a theoretical framework, and combining quantitative and qualitative methodologies. He participates in several international research projects (e.g. GEM, PSED, GUESSS) and also regularly visits Haas School of Business (University of California, Berkeley).

Christine Weigel has been a research associate at the University of Siegen since 2016 where she is currently writing her PhD thesis at the Chair of Management Accounting and Control. She has published her research in national and international accounting journals and presented her work at numerous accounting conferences. She is furthermore a fellow at University of Siegen's Fast Track PhD programme SME Graduate School which is a scholarship and mentorship programme for young researchers interested in SME-related research.

Since 2013, **Friederike Welter** has been head of the *Institut für Mittelstandsforschung (IfM) Bonn*, a policy-oriented independent research institute, and professor at the University of Siegen. Prior to this, she was Professor and Associate Dean of Research at Jönköping International Business School, Sweden (2008–12), professor at the University of Siegen (2005–8) and senior researcher/deputy head of a research group at RWI Essen

(1993–2006). Her main research interests are entrepreneurship in different contexts, women's entrepreneurship, and entrepreneurship/SME policies, on which she has published extensively. Welter is also senior editor of the leading journal *Entrepreneurship Theory and Practice*. For her work on small business and entrepreneurship, she has been honoured as ECSB Fellow (2011), as Wilford L. White Fellow of the International Council of Small Business (ICSB, 2014), with the DIANA Legacy Award (2015) and the Greif Research Impact Award (2017). The *Frankfurter Allgemeine Zeitung* regularly lists her amongst the most influential economists in Germany.
