## PART I IMPACTS OF THE EMERGING TWENTY-FIRST CENTURY ECONOMY

1. Environmental taxation in the digital world 2  
*Janet E. Milne*
2. Is the low level of tax on e-commerce contributing to an environmentally unfriendly increase in transport? 18  
*Marta Villar Ezcurra*
3. Tax incentives for green investments: limits to state cutbacks. A reflection on legitimate expectations and fair and equitable treatment of investors 32  
*Jerónimo Maillo*

## PART II FISCAL ENVIRONMENTAL POLICIES FOR URBAN CONCENTRATION

4. Smart cities: can business improvement districts reduce the environmental footprint of urban areas? 46  
*Helena Villarejo Galende, María Luisa Esteve Pardo and Clara Peiret García*
5. The costs and benefits of extended producer responsibility: an evaluation of the Italian waste electrical and electronic equipment (WEEE) management system 60  
*Edoardo Croci and Francesco Colelli*

- |    |  |     |
|----|--|-----|
| 6. | Fiscal policy for decarbonization of energy in Europe, with a focus on urban transport: case study and proposal for Spain<br><i>David Robinson, Pedro Linares Llamas, Xiral López-Otero and Renato Rodrigues</i> | 75  |
| 7. | A proposed green tax reform for Cyprus and its co-benefits for urban sustainability<br><i>Theodoros Zachariadis</i>  | 91  |
| 8. | The agricultural conundrum: encouraging climate-friendly agriculture through economic instruments in North America<br><i>Emma Akrawi</i>   | 106 |

### PART III CHALLENGING ISSUES FOR TRANSPORT TAXES

- |     |   |     |
|-----|---|-----|
| 9.  | External costs and environmental taxation: the role of transport sectors within the Italian economy<br><i>Andrea Molocchi</i>                       | 123 |
| 10. | An environmental take on Australia's traffic congestion 'crisis': using road pricing to achieve sustainable transport<br><i>Vanessa Johnston</i>    | 139 |
| 11. | Taxing vehicle use to overcome the problems of conventional transport taxes<br><i>Alberto Gago, Xavier Labandeira and Xiral López-Otero</i>         | 154 |
| 12. | Sharing cars: a legal and economic analysis of the taxation of B2C car-sharing models<br><i>Fanny Vanrykel, Bruno De Borger and Marc Bourgeois</i>  | 168 |
| 13. | Renewable energy, smart grids and hybrid vehicles: a Brazilian case study<br><i>Elena Aydos, Rafaela Cristina Oliari and Carlos Araújo Leonetti</i> | 181 |

### PART IV THE EVALUATION OF CROSS-CUTTING POLICIES

- |     |  |     |
|-----|--|-----|
| 14. | <i>Ex-post</i> cost-benefit analysis of environmentally related tax policies: building on programme evaluation studies<br><i>Jonas Teusch and Nils Axel Braathen</i> | 196 |
|-----|--|-----|

15.	Designing carbon taxes: economic and legal considerations <i>Claudia Kettner, Daniela Kletzan-Slamanig, Stefan E. Weishaar and Irene J.J. Burgers</i>	213
16.	The use of effective carbon rates as an indicator for climate mitigation policy <i>Kris Bachus and Ping Gao</i>	226
17.	The G20 peer review of fossil fuel subsidies <i>Aldo Ravazzi Douvan and Gionata Castaldi</i>	241
18.	Increasing fiscal transparency in energy policies <i>Leyla Ates and Sevil Acar</i>	257
	<i>Index</i>	273
