Introduction <i>Helle Neergaard and Claire M. Leitch</i>	1
PART I CONSTANT COMPARATIVE TECHNIQUE	
An introduction to the constant comparative technique <i>Alistair R. Anderson and Sarah L. Jack</i>	15
1 Using the constant comparative technique to consider network change and evolution <i>Sarah L. Jack, Alistair R. Anderson, Sarah Drakopoulou Dodd and Susan Moulton</i>	21
2 Using constant comparison as a method of analysis in entrepreneurship research <i>Susan M. Smith and Edward McKeever</i>	52
3 Grounded theory analysis in entrepreneurship research <i>Anne Bollingtoft</i>	74
The future for the constant comparative technique <i>Alistair R. Anderson and Sarah L. Jack</i>	95
PART II METAPHOR METHODOLOGIES	
Metaphor methodologies: exploring entrepreneurship research, pedagogy and researchers <i>Sarah Drakopoulou Dodd and Alice de Koning</i>	101
4 Enacting, experimenting and exploring metaphor methodologies in entrepreneurship <i>Sarah Drakopoulou Dodd and Alice de Koning</i>	109

vi	<i>Handbook of qualitative research techniques in entrepreneurship</i>	
5	Con‘text’ualizing images of enterprise: an examination of ‘visual metaphors’ used to represent entrepreneurship in textbooks <i>Robert Smith</i>	139
6	Metaphors in communication of scholarly work <i>Cecilia Bjursell</i>	170
	Metaphor methodologies in entrepreneurship research <i>Sarah Drakopoulou Dodd and Alice de Koning</i>	185
<b>PART III CRITICAL INCIDENT TECHNIQUE</b>		
	The critical incident technique: an overview <i>Claire M. Leitch</i>	191
7	Researching the entrepreneurial process using the critical incident technique <i>Elizabeth Chell</i>	199
8	The efficacy of the qualitative variant of the critical incident technique (CIT) in entrepreneurship research <i>Claire M. Leitch and Frances M. Hill</i>	224
9	A critical incident technique approach to entrepreneurship research using phenomenological explicative data collection <i>Richard T. Harrison</i>	251
	Critical incident technique: some conclusions <i>Claire M. Leitch</i>	269
<b>PART IV FOCUS GROUPS</b>		
	Provenance and use of focus groups <i>John Watson and Rick Newby</i>	273
10	Conducting a traditional focus group <i>John Watson, Rick Newby, Helle Neergaard and Robert Smith</i>	281
11	Conducting a focus group using group support system (GSS) software <i>Geoff Soutar, Rick Newby and John Watson</i>	311

12	Conducting an on-line focus group <i>Rick Newby and John Watson</i>	339
	Focus groups: what have we learned? <i>John Watson and Rick Newby</i>	354
PART V REPERTORY GRID TECHNIQUE		
	Repertory grids in entrepreneurship: practical examples from research <i>Rita G. Klapper</i>	359
13	Using repertory grid technique to explore the relationship between business founders and support agents <i>Anja Hagedorn</i>	367
14	Using repertory grid to assess intangibles: uncertainty reduction for lean start-ups in entrepreneurship <i>Enrique Díaz de León and Paul Guild</i>	393
15	Repertory grid technique: an ideographic and nomothetic approach to knowledge <i>Carmen Dima</i>	423
	Concluding thoughts on repertory grids <i>Rita G. Klapper</i>	441
	<i>Index</i>	443
