The *Review of Keynesian Economics* is indexed in the Thomson Reuters
Social Sciences Citation Index.

Aims and scope

The *Review of Keynesian Economics (ROKE)* is dedicated to the promotion of research in Keynesian economics. Not only does that include Keynesian ideas about macroeconomic theory and policy, it also extends to microeconomic and meso-economic analysis and relevant empirical and historical research. The journal provides a forum for developing and disseminating Keynesian ideas, and intends to encourage critical exchange with other macroeconomic paradigms.

ROKE is dedicated to the development of Keynesian theory and policy, defined as (1) holding that output and employment are normally constrained by aggregate demand, (2) holding that the problematic of aggregate demand shortage exists independently of price, nominal wage, and nominal interest rate rigidities, and (3) rejecting the claim that the real wage is equal to the marginal disutility of labor. In our view, Keynesian theory should hold a similar place in economics to that held by the theory of evolution in biology.

Many individual economists still work within the Keynesian paradigm, but intellectual success demands institutional support that can leverage those individual efforts. The journal aims to offer such support by providing a forum for developing and sharing Keynesian ideas. Not only does that include ideas about macroeconomic theory and policy, it also extends to microeconomic and meso-economic analysis and relevant empirical and historical research.

We see a bright future for the Keynesian approach to macroeconomics and invite the economics profession to join us by subscribing to the journal and submitting manuscripts.

Elgaronline

The digital content platform for libraries.
Allows unlimited user, university wide access.

Includes monographs, research handbooks, encyclopedia, research reviews, journals and much more.
Please email sales@e-elgar.co.uk (UK/RoW) or elgarsales@e-elgar.com (N/S America) for more information.

Submissions & Subscriptions

Published quarterly, *ROKE* adheres to a double-blind review process. The editors are looking for research-quality papers on a wide variety of topics in economics and political-economy. Articles should be sent by email, and should not be more than 8,000 words, including references and bibliography.

Submissions and editorial queries should be sent to Thomas Palley (mail@thomaspalley.com). All submissions should be in Adobe PDF format. Authors should send a title page with abstract and author affiliation & contact information, plus an anonymous manuscript without author information or thanks to colleagues. Final accepted articles will be delivered in Word. Book reviews should be sent to Virginie Monvoisin, Grenoble Ecole de Management, France (virginie.monvoisin@grenoble-em.com).

Full information about submissions or details for authors can be found at www.elgaronline.com/roke.

Individuals: £124.00/\$202.00 (online & print); £82.00/\$132.50 (online)
Institutions: £351.00/565.00 (online & print); £307.00/\$495.50 (online)
Single print issue: £65.00/\$100.00
Students: £52.50/\$84 (online only)
Four issues per year
